

### **Toryglen Regional Football Centre (Ward 7) - City Plan Policy ENV2 funding approved.**

**3** Councillor Aitken, Leader of the Council and City Convener for Inclusive Growth, presented a report regarding the use of City Plan Policy ENV 2 Outdoor Sports funding for the replacement and maintenance of a full-size 3G synthetic pitch at Toryglen Regional Football Centre (Ward 7), advising that

- (1) 2 of the 3 outdoor full-size, floodlit, 3G synthetic pitches at the centre were extensively worn and in need of replacement if they were to remain effective in meeting community demand for the facility;
- (2) Glasgow Life was proposing to renew both pitches over the 2018/19 and 2019/20 financial years and had requested a capital contribution of £80,000 to complete the anticipated capital funding of £250,000 for the replacement of 1 of the pitches in 2018/19; and
- (3) in accordance with City Plan Policy ENV 2, the capital cost would require to be supplemented by £20,000 of revenue funding for the on-going maintenance of the pitches.

After consideration, the committee approved the use of £100,000 of City Plan Policy ENV 2 Outdoor Sports funds for the replacement and maintenance of a full-size 3G synthetic pitch at Toryglen Regional Football Centre.
