Current Redeployable Camera Status 13.03.24

Ward/Area	Location	Decision	Current Status
East Centre (Ward 18)	Gogar Place	No	Gogar Place has not suitable options for power or comms
	Lethamill Drive	No	No Viable Comms option at present
	Danny park	No	Location has no viable options for poles to provide required coverage. Tree Foliage is an issue and will block and comms path
	Dinart Street		No Viable comms option at present
	Cloch Street @ Fastnet	Yes	A solution was identified for Fastnet St but does not have suitable lighting columns and NRS lighting cannot replace with a Transmission pole due to health and safety concerns with the ground/location. Therefore, a solution at that location cannot be provided.
	Findhorn Street	No	No Viable Comms option at present, due to multi storey tenements at location. There all also significant **Privacy Impact** with tenements.
Additional INFO			We are trailing a SIM option, but these still require suitable columns for cameras but also come with significant costs as CCTV uses large amounts of data. All these locations have been discussed with the Neighbourhood Liaison Team (NLT) and limitations explained. We are in the process of providing a map of current camera locations and our comms links for the area however site visits and on the ground, assessment will still be required for any location identified.
