Do you work in Glasgow City?

You can access FREE courses

if you are working in communities with children, young people or adults.

Coming up in April and May

Alcohol Awareness ... Drug Awareness ... Multiple Risk and Young People

NEW for 2024
Ketamine Awareness

Booking your SDF training is simple.

This link takes you straight to our training website where you can book a course that suits you. Booking opens a month in advance.

Our facilitator-led courses take place online via MS Teams
Courses run from **9.15am till 1.15pm**

New to working in this area?

You might want to take part in our Drug and Alcohol Awareness courses first.

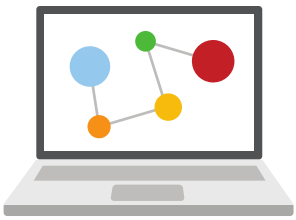

ADP Glasgow City Alcohol and Drug Partnership

Funded by

Glasgow City HSCP Health and Social Care Partnership

Online Courses

SDF online training is facilitator led and interactive. Come ready to have your camera on and join in the discussion. To get the best out of our training sessions please use a laptop if you can.

"As always breaks up into smaller groups, then discuss in main group - this helps split the time up and keeps concentration."

Drug Awareness; 18th

Young People and Multiple Risk; 25th

Alcohol Awareness; 30th

Drug Awareness; 16th

""Really impressed with the training today. I know SDF's training is held in high regard, but coming along today really cemented that for me."

Online via MS Teams 9:15am to 1:15pm

Alcohol Awareness

This course aims to increase knowledge and awareness of the key issues relating to alcohol use in Scotland. Participants will have the opportunity to consider harm reduction and increase their awareness of support services in Glasgow.

"A well thought out course that clearly explained alcohol issues in Scotland."

Drug Awareness

This course aims to increase knowledge and awareness of key issues related to drug use. Participants will have the opportunity to explore current and emerging trends in drug use, consider harm reduction and increase their awareness of support services in Glasgow.

Pre-course e-learning available

"A better understanding of drugs and how to take a harm reduction approach"

Young People and Multiple Risk

Young people today are exposed to lots of opportunities to engage in activities that may put them at risk, such as substance use, being online and risky sexual behaviour. This training aims to increase awareness and knowledge of risk and multiple risk, those affected and its impact. Participants will have the opportunity to explore what this means in practice when working with young people and where to access support.

"Increased awareness of issues that young people may be facing and confidence to begin difficult conversations.

'"Be curious when working with children and young people around their levels of risk taking behaviours and protective factors. ."

In Person Courses

9:30am to 4:30pm

Ketamine Awareness

23rd May 2024

This training aims to increase knowledge of the current and emerging trends in ketamine use. Participants will be able to identify physical and psychological effects and recognise the wider impact of ketamine use. Participants will gain an awareness of harm reduction, support strategies and signposting.

Venue will be confirmed on registration.

Our free in person training is always in demand. Please make sure that you will be able to attend. If you are unable to take your place **it is essential you give us as much notice as possible.** so we can give your place to someone on the waiting list.

We can now offer face-to-face training for teams at your venue. Please get in touch if you are looking for free training for your Glasgow based organisation.

Anyone in Scotland can access our extensive E-Learning library

CRAFFT Training In Person

SDF is working in partnership with Glasgow City Health Improvement to offer this training which provides an opportunity for trusted adults who engage with young people to develop their knowledge and skills to effectively engage in one-to-one early intervention conversations about alcohol and drug use. The training and screening tool will help to identify young people who may benefit from a brief intervention and if needed, a motivational discussion about their alcohol and drug use. It can also help identify the need for referral to an agency such as the Glasgow City Youth Health Service for further support.

CRAFFT is part of a multi-component programme in Glasgow that aims to mitigate multiple risk behaviours in young people whilst improving health and wellbeing. This includes the promotion of the SDF Multiple Risk and Young People training, as well as programmes for pupils in key transitional stages in primary and secondary school. To attend CRAFFT training you will:

1. Work in Glasgow with young people aged 12-17 (in any setting)
2. Have attended SDF Multiple Risk and Young People Training. You may also find it helpful to complete SDF Drug Awareness eLearning
3. Be able to use the CRAFFT App on a mobile or access an online questionnaire when recording screenings and outcomes.
4. Be able to engage with the Health Improvement team before and after the training to contribute to information required for evaluation of CRAFFT and to access support if needed.

To register for CRAFFT training please get in touch with the North West Youth Health Improvement Team. They will be able to talk to you about these requirements and answer any questions you may have.
