Community Engagement report noted.

8 There was submitted a report by the Head of Policy and Corporate Governance, regarding an update in relation to the process for engaging communities in relation to the Neighbourhood Infrastructure Fund (NIF), advising that

(1) the next agreed ward for community engagement would be Drumchapel/ Anniesland to start in Autumn 2024 and the kind of 'people' resource that was needed, had been identified at this stage to be predominantly co-ordination, survey creation, people who could do community engagement with people in the area, and data analysis;

(2) the Communities Team would still carry out much of the 'feet on the ground' engagement, with additional support from Glasgow Life and colleagues across different services in NRS; and

(3) 7 new staff members had been employed and were working towards a new workplan for August/September 2024.

After consideration, the Partnership noted

(a) the report;

(b) that the partnership had until 20th October 2024 to identify and propose ideas on what could be funded from NIF;

(c) that any proposed suggestions which already had work planned by the Council had been removed to avoid duplication; and

(d) that the community would have an opportunity to vote on proposals to be brought to the Partnership for costing and approval.
