Health and Social Care Partnership – Adult Health and Wellbeing Survey 2022/23 - North East Glasgow update noted etc.

7 There was submitted a report by the Interim Chief Officer, Glasgow City Health and Social Care Partnership (HSCP), regarding an update on NHS Greater Glasgow and Clyde, Adult Health and Wellbeing Survey 2022/23, advising of the North East locality findings, highlighting that

(1) the sample size was 1,669 residents from the North East area;

(2) the survey content included population characteristics, financial wellbeing, social health, social capital, health behaviours and health and fitness;

(3) 19% of people lived alone and 68% of people aged 75+ lived alone;

(4) 69% had a positive view of the adequacy of their household income;

(5) 1 in 5 felt isolated from family and friends and 77% felt that they belonged to their local area;

(6) 73% valued local friendships and that 85% had a positive view of social support;

(7) 26% were current smokers and that 8% of non-smokers had been exposed to smoke at home or someone else's home;

(8) 67% of those who drank alcohol had binge drank in the last year; and

(9) 69% rated their mouth/teeth as in good health and that 68% definitely felt in control of decisions affecting their life.

After consideration, the Partnership

(a) noted

(i) the report and thanked Rosalind and the North East Health Improvement Team for their work; and

(ii) that the Partnership budget priorities would look at the data statistics as part of the Ward plan; and

(b) agreed that all data links be shared with the Partnership and that the Partnership look at developing the next steps at a local level to map out what was currently available and which could help to address the gaps and the key findings within the presentation data.
