Bonfire debrief noted – Request to Scottish Fire and Rescue Service.

3 There was heard a verbal update by Area Commander David Murdoch, Scottish Fire and Rescue Service and Chief Superintendent David Robertson, Police Scotland regarding this year's Bonfire night, advising that

(1) in general, this year's Bonfire night had passed with a small number of incidents recorded, which was a reduction on last year;

(2) as a result of the muti-agency approach, there had been a number of uplifts undertaken of potential bonfires prior to Bonfire night, resulting in fewer bonfires on the night;

(3) preventative work by partner agencies had been carried out in Glasgow schools, educating children on the dangers of fireworks and lighting of bonfires etc;

(4) unfortunately, there had been 3 attacks on firefighters, damage to one fire appliance and 5 police officers had also been injured across the Glasgow area; and

(5) the Scottish Fire and Rescue Service and Police Scotland were currently undertaking a full debrief on all recorded incidents.

After consideration, the Partnership

(a) noted

(i) the success of this year's campaign, which was largely due to the multi-agency approach; and

(ii) that once completed, de-brief information on all reported incidents would be submitted to the appropriate Area Partnerships; and

(b) requested the Scottish Fire and Rescue Service, following a request by Councillor Philip Braat, to submit information to the Drumchapel/Anniesland Area Partnership as to whether the number of incidents had reduced or increased within the Ward due to Winterfest not taking place this year.
