CLAYTHORN CC SUBMISSION IN RELATION TO INFRASTRUCTURE IMPROVEMENT FUND'

Ward 23

***Refurbish directional road markings at the junction of Gt Western Road / Fifth Avenue / Ascot Avenue.**

CCC minute 9/5/23 **Roadway junction Great Western Road / Fifth Avenue/ Ascot Avenue -** just outside Wetherspoons is now a danger. The road markings need repainting. This junction only work*s* if traffic *tur*ning right into Fifth Avenue and right into Ascot Avenue pass each other on the nearside.(passenger side). Otherwise, vehicles cannot turn unhindered. Causing tail backs of traffic. Locals and frequent users are aware of this but those not aware try to turn by passing other vehicles on the offside (drivers' side) of each vehicle. This is not practical for this junction and requires clear white lines to determine how this junction should be used. **Minute 6/6/23 GCC has included renewal in GCC 2023/2024 programme.** Work remains outstanding and is a road safety issue.

*** 3 trees, removed from central reservation Gt Western Road adjacent to Bingham's Pond Park, to be replaced.**

March 2021 GCC removed 3 trees on the Central reservation opposite Bingham's Pond Park 20 /3/21 GCC reply - advise that additional trees will be planted prior to the end of the tree planting season in March 2022. **11/5/21 - the replacement of the trees will be completed this year. * 20/4/21 GCC – continuing to liaise with contractors and suppliers regarding the possibility of replacing the trees this year; * 8/6/21 the tree planting cannot take place until planting season 2022**. CCC Minute 8/11/22 CCC minute 8/11/22 - issue again raised re outstanding trees, - **still no response from GCC**.

*** Kerbstones in Hatfield Drive to be repaired.**

Initially reported in December 2020 that there were many dangerous kerbstones requiring urgent attention in Hatfield Drive – CCC note 12/1/21 GCC to assess. CCC minute 13/12/22 – GCC undertook review and report that one kerbstone be renewed. Difficult to believe as a large number require to be renewed. 7/2/23 – Councillors followed up**. CCC minute GCC instruction has been created within the GCC 2023 / 2024 minor works programme.to <u>reset all loose kerbs</u>** - remains outstanding.

*** Provision of a fireproof picnic table at Bingham's Pond Park.**

GCC indicated that this would be in place by summer 1923, then promised by Autumn 2023 and is now listed to be programmed prior to September 2024 with contractor appointed. NB the second table at location now also damaged.

***Damaged speed activated sign in Hatfield Drive near to its junction with George Reith Avenue.**

The activated speed screen had fallen onto the pavement during high winds in early March 2024 and Baligh arranged its removal from the pavement.

Ward 23 February 2022 Partick East /Kelvindale AP agreed the provision of a **new weather and BBQ proof bench at Bingham's Pond Park**. Promised to be completed by summer 2023. Then at a recent meeting in 2023 stated it had been delayed but would be provided before the end of 2023.

Ward 23 Lack of mechanical street sweeping - Roads / pavements not being swept. – This previously occurred every week and for the last 2 years now nonexistent. This is to address both litter and especially at Autumn time for leaves which gather on, and block all drains in the area causing flooding at the junction of Fifth Avenue and Hatfield Drive.

THE FOLLOWING IS ADDITIONAL INFORMATION FOR NRS WARD 12

WARD 12 Victoria Park AP

*** Refurbish of road markings in Ancaster Drive ((double yellow at corner and white lines at drop down kerbs).**

CCC Note 7/6/22 & CCC minute 11/10/22 Road markings require renewing in Ancaster drive after resurfacing. GCC intimated that work had been completed (all they did was paint white directional arrows on the one-way road and added a keep clear area outside the charity shop NB this signage was not there prior to the resurfacing.) . Forgot to paint the double yellow lines at corner of Ancaster / Willoughby Drive. and the white lines at dropped down kerbs in Ancaster) .CCC minute 8/11/22 GCC has advised that an that instruction has been passed to external contractor to refurbish the road markings. CCC meeting 18/4/23 and 9/5/23 Road markings remain to be completed despite promise by GCC to undertake this task within 30 days. CCC minute **7/6/23** GCC reply " I can advise that an instruction has been passed to our external contractor to reinstate the road markings at this location following the carriageway resurfacing works, however, road marking operations have been affected by recent weather conditions and contractor availability which has had a serious impact on our work programme. This has resulted in a large backlog of work and some works have had to be prioritised. Unfortunately, I am unable to provide an affirmed date for the completion of this work at this time.

*** Crow Road / Whittingehame Drive - lining programme to create an advance stop line for cyclists at the junction of Crow Road and Whittingehame Drive." and " extension of the yellow box junction marking up to studs on the southbound carriageway of Crow Road.**

Crow Road / Whittingehame Drive - lining programme to create an advance stop line for cyclists at the junction of Crow Road and Whittingehame Drive." and " extension of the yellow box junction marking up to studs on the southbound carriageway of Crow Road; NB this work has been outstanding for months.

*** Refurbish yellow box and white keep clear road markings at the junction of Crow Road / Ashwood Drive.**

NRS instruction to refurbish yellow box and white keep clear road markings at the junction of Crow Road / Ashwood Drive has been passed to the GCC external contractor for renewal. NB this issue raised with GCC recently in October 2023

*** Installation of a Speed activated road sign in Crow Road .**
Last Partick West AP meeting agreed to pay half of the costs.
