NHS Greater Glasgow and Clyde Adult Health and Wellbeing Survey 2022/23 – Presentation noted etc.

4 There was heard a presentation by Elaina Smith, Glasgow City Health and Social Care Partnership, providing information regarding NHS Greater Glasgow and Clyde's 2022/23 Adult Health and Wellbeing Survey, advising

(1) of various background information in relation to the survey, which provided valuable information on the self-perceived health and wellbeing of residents, their health behaviours, social health, social capital and financial wellbeing;

(2) that the survey was considered a flexible tool for monitoring the health and wellbeing of the population and had been conducted every 3 years since 1999 and was the 8th in the series of such studies;

(3) of the methodology used, sample size, reporting format and of the survey content;

(4) that the survey included a core set of questions, with new questions introduced to reflect local priorities and changing national targets; and

(5) of the initial findings of the research survey for Glasgow City.

After consideration and having heard further from Elaina Smith in response to a number of members' questions, the Forum noted

(a) the contents of the presentation;

(b) that the next steps would include the preparation of thematic briefing papers in relation to various subject matters and that design and analysis would be undertaken and local strategic plans and priorities developed; and

(c) that the Clerk to the Forum would arrange for the presentation slides to be circulated to members for information following this meeting.
