Item 8 - Appendix 1
Additional application

Client / Project Title	Purpose of application	Local Investment Priority	Total project costs	Amount requested	Recommendation including specific conditions
Friends of Linn Park "Community Field"	To develop an area within Linn Park to allow the group to harvest seeds, plant them, nurture to seedlings, and then re-plant within the park to help support bio-diversity. This applies to both the meadow and woodland areas. To allow this to happen, the group needs to install some field drainage, hard standing to ensure the site is accessible and some storage. In time, they hope to install a polycrub structure on the site to support the development of the seedlings. <u>Cost breakdown</u> Land drain pipe - £150 Type one material – 20 tonnes - £800 Pea gravel – 20 tonnes- £1,000 Sharp sand – 10 tonne - £800 Publication of event, refreshments - £500 Timber sleepers and compost/soil to make planters - £1,000	Cleaning and environment	£4,250	£4,250	Award £4,250 subject to assessment by GCC NRS.
