FESTIVE LIGHTING PROGRAMME 2024/25

Purpose of Report:

The purpose of this report is:

(1) to advise members of the central funding available and the pricing guidelines for the 2024/25 festive lighting programme;

(2) remind members of the 23/24 festive lighting programme; and

(3) to seek agreement on the 24/25 programme and, where necessary, the allocation of additional funding.

Recommendations:

The Area Partnership is asked to:

(1) note the lighting arrangements and the central funding available for the 2024/25 programme;

(2) approve the necessary funding for any additional costs over and above the central funding.

Introduction

1. The Council took the decision to delegate funding for peripheral festive lighting to the Area Partnerships as part of the budget process for 20/21. A similar arrangement is proposed for the 2024/25 programme.
2. Each Area Partnership is awarded £3,600 central funding to meet the costs of erecting and maintaining festive lighting, usually at a single location.
3. Area Partnerships have the option to fund additional festive lighting locations.

	Sub-Total	£ 6,330
	Deduct Central Funding	£ 3,600
	Total Additional Funding	**£ 2,730**

Additional locations requested by the Area Partnership have been added into the 2024 programme. Costs include for relocation of Nitshill Rd column feature to Barrhead Road.

GCC has procured the Festive Lighting contract at reduced costs from previous years. Area Partnerships will benefit from the fixed competitive contract rates over the next four years. An annual inflationary increase has been included in the above rates to provide a consistency over the contract period.

7. The Area Partnership is invited to identify the locations where a switch on event is proposed to be held for either a Xmas or natural tree. Column mounted features will come on at the same time as the streetlights on the day of installation.

8. If the total cost of the delivering the festive lighting programme selected by the Area Partnership exceeds the £3,600 central funding, then the balance of the funding will require to be met by the Area Partnership from other funds.

Recommendations

9. The Area Partnership is asked to:

(1) note the lighting arrangements and the central funding available for the 2024/25 programme;

(2) approve the necessary funding for any additional costs over and above the central funding.
