

North West Glasgow Voluntary Sector Network - Update noted.

9 There was heard and noted a report by Jill MacKay, North West Glasgow Voluntary Sector Network, providing an update on youth disorder, advising

- (1) that youth disorder had been a key concern for many communities in the Canal Ward and that ARC had to be locked down due to young people being disruptive outside the building and a shop on Bilsland Drive had been raided following a youth session delivered by North United Communities;
- (2) that there had been several meetings between local people, Police Scotland, service providers, schools and other relevant agencies highlighting these issues; and
- (3) that strategies were being investigated to put in place to tackle youth disorder effectively however more work was required to resolve these issues.

After consideration, the Partnership

- (a) noted the report;
- (b) agreed that the elected members on this Partnership would meet offline to discuss how the Area Partnership could assist with the possibility of funding to tackle youth disorder in the ward.
