Key Themes across North West

- The main issues for the North West are taken from a selection of our member organisations:

The tragic loss of life of a teenager who attend Kingsway Community Connections, focuses our minds on the rise of youth disorder & knife crime. The network is hearing from many organisations in the North West that there has been a sharp increase in issues with young people in communities.

A similar rise in knife crime & youth disorder occurred in the early 2000s, and Scotland took an innovative approach to see it as a public health issue. Educating, supporting & giving young people hope & opportunities, reduced incidents significantly. A similar approach is needed now, with organisations that provide youth services coming together to plan jointly. However, this needs appropriate funding, and at the time when funding is more competitive & is reducing, this a concern. On behalf of members the network urges Glasgow City Council & other community planning partners to work with youth providers, to provide services & supports in every community, to work with families, schools and listen to the young people themselves.

[How Scotland stemmed the tide of knife crime - BBC News](#)

I would also like to highlight the effects on staff who are working with the young people & families affected. The vicarious trauma & consistently pushing down natural reactions to continue to support the people you work with, takes its toll. I have heard from workers who are working with young people intoxicated, aggressive, suicidal, hungry, cold, scared & that don't want to go home. They carry this with them and have to go home to their families & friends and pick up their lives. As well as investing time & funding in our young people, we need to invest in the workers who are supporting them.

<p>General Member Update</p> <p>Recently, youth disorder has been a key concern for many communities in the Canal Ward: the ARC had to be locked down due to young people being disruptive outside the building, and the shop on Bilsland Drive was raided, after attending a youth session delivered by North United Communities. This has caused distress to local residents, businesses and the local police.</p> <p>Since this has come to the fore, there have been several meetings between local people, the police, service providers, schools and other relevant agencies. These have been very useful in that the issue has now been brought to the attention of all parties, so that conversations can be had to look at what strategies can be put in place to tackle this effectively. However, these developments are at an early stage and much more work and thought will have to take place to resolve these issues.</p> <p>An ongoing report will be provided to the Canal Area partnership to update on the ways forward, collaborative approaches and outcomes.</p> <p>Love Milton https://www.facebook.com/welovemilton</p> <ul style="list-style-type: none"> • Four Walls group proving popular, and well attended <p>North United Communities http://www.nuconline.co.uk/</p> <ul style="list-style-type: none"> • Continued work across Milton, Lambhill, Ruchill and Maryhill with groups running throughout the week. <p>Lambhill Stables https://www.lambhillstables.org/:</p> <ul style="list-style-type: none"> • Gardening groups up and running for springtime again • Usual range of activities running through the week. <p>Young People's Future http://www.youngpossilfutures.org.uk/ North Glasgow Community Food Initiative https://www.ngcfi.org.uk/: Possibilities https://possibilities.org.uk/</p>

G15 Youth <https://www.facebook.com/g15youth>

- Working with around 160 young people a week high demand for the service & a waiting list. Kids desperate for a safe space to go, don't feel safe on the streets.
- Back doing the No knives, Better lives work & lots of discussion around the Netflix programme Adolescence [Adolescence \(TV Mini Series 2025\) - IMDb](#) that tackles knife crime & the ripple effect it has.
- Run a group for young people with Additional support needs but there's a high demand & parents are asking for more support.
- A youth service but having to work with whole family as parents are seeking help to handle their teens behaviour.
- Also have a mental health group in the High School, there's a lot of anxiety & low mood. Provide a street work service to engage the young people who aren't engaging, trying to get them along to the clubs. Run football clubs in the better weather, but local MUGA is in bad repair due to quad bikes using it. The message is we need funding to do more for our young people.

What are the issues in the ward?

-

What are the key issues facing members?

- Increased demand for Services – Impacting Capacity
- Funding – Glasgow Communities Fund is open
- ESOL provision – huge waiting lists being noted by ESOL providers
- Youth violence – see below

Devastating increase in youth violence.

Issues relating to youth violence have previously been discussed at the Area Partnership. The escalation of this, as demonstrated by the tragic death of Amen Teklay, is something that requires to be urgently addressed at ward (and City) level.

Youth provision has been underfunded in the ward for many years. Broader factors that contribute to risk-taking behaviour such as poverty, inequality and lack of adequate support and opportunity at community level have further impacted. A report by the Institute of Fiscal Studies (November 2024) noted that the closure of youth clubs creates greater societal costs than the monies saved from the public purse.

More importantly, lives of our children and young people are being lost, either through being victims of violent crime or perpetrators of it. Now is the time for action to be taken to mitigate the tragedy of another family suffering the loss of their child.

General Member Update

The whole of our Community was shocked when 15 year old Amen Teklay was found seriously injured in Clarendon Street and died despite the efforts of the medical services who had arrived in the street. To his family and friends, we offer our deepest condolences.

Community Central Halls <https://centralhall.org/>

- Clarendon Street and Woodside in general in recent times has been a quiet area. It is not so long ago that young people were collected by CCH minibuses to take them to activities at CCH as they were too afraid to cross Maryhill Road due to the presence of gangs defending “their area”. Inevitably such a serious and unexpected tragedy leads to members of our community considering whether the risks to young people walking in the streets at night are much higher than originally thought, and if our streets are becoming less safe what are the roots of this change?
- Safety of staff, users and the community whom we serve is of paramount importance. If we do perceive changes taking place in our area, then we must not only assess risks but to consider why it is happening.
- The cuts in funding and services for young people have led to a reduction in support and an increased for our services. Cuts have also led to the reduction of opportunities for young people leaving school without qualifications. Cuts in government budgets have led to the reduction of training places and apprenticeships.
- The Voluntary Sector itself is facing not only reductions in funding but hugely increasing costs resulting from the increase in employers’ National Insurance payments, the increase in the Living Wage and the steep rise in energy and other running costs which has led already to some redundancies and creates a bleak outlook.
- We have noted in recent months that women have become more conscious of safety issues which arise from multiple causes some of them originating in schools where the treatment of girls has become a serious issue. Two MSPs, Pauline McNeill from Glasgow and Katy Clark from North Ayrshire have published a groundbreaking report on “Women and Girls and Violence in Scotland”.
