

Scottish Fire and Rescue Service ward update noted.

4 There was heard a report by Watch Commander John Parker, Scottish Fire and Rescue Service (SFRS) advising

- (1) of the engagement carried out by the Service to local schools on fire safety; and
- (2) that a more detailed report would be provided to a future meeting of the Partnership.

After consideration, the Partnership noted

- (a) the report
- (b) that SFRS should report issues of parked cars obstructing a road, which would affect a route for appliances to attend an incident to the Council for enforcement action to be taken.
