Case Officer: Laura Johnston

Customer Details

Name: Mrs margaret reid

Address: 4 Fernleigh Road, Glasgow G43 2UE

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am aware the proposal is now for one feeder pillar charging two vehicles, but I am still concerned about how near the culvert is to the surface. I know that in the past previous requests to build on or use the area for parking have been refused.

When I had my lawn removed and plastic grass installed the gardeners could not put down the recommended layers of preparation because of the proximity of the culvert to the surface of my garden. The car park would have to be strengthened to the standard of the main road which also goes over the culvert. The last time workers were in my garden to maintain the culvert they said they were from East Renfrewshire council, so as East Renfrewshire maintain the culvert, are they aware about the proposal?

I am also concerned about antisocial behaviour if this goes ahead, namely, noise from slamming doors at all hours, littering, more rats being attracted to the area and groups hanging about the area.

Will CCTV be installed?
