

**Neighbourhood Infrastructure Improvement Fund Programme – Community engagement update noted – Request to Executive Director of Neighbourhoods, Regeneration and Sustainability.**

**9** There was submitted a report by the Head of Policy and Corporate Governance, regarding the next stages for community engagement on the Neighbourhood Infrastructure Improvement Fund (NIIF) Programme, advising

- (1) of the current NIIF allocation across the Area Partnerships and the challenges faced by Partnerships regarding generation of ideas, timescales of the funds, community engagement and allocation;
- (2) that Neighbourhoods, Regeneration and Sustainability would provide a progress report to the next meeting of the Partnership, which would include up to date costings and allocations for each ward, information on the new internal processes for the NIIF and templates for the recording of ideas; and
- (3) that members should advise how the process of NIIF allocations should continue, how the remainder of the £1m fund should be allocated and what support would be required from the Communities Team.

After consideration, the Partnership requested

- (a) that the following costs be confirmed:-
  - (i) 4 redeployable CCTV cameras costed at £6,000 - £8,000 each (total £24,000 - £32,000), subject to confirmation that no ongoing revenue is required beyond redeployment fees;
  - (ii) the allocation of £60,000 to deliver a signalised crossing at Danes Drive Park, subject to confirmation that no ongoing revenue was required; and
  - (iii) the allocation of £60,000 to resurface Crescent Road (whole road); and
- (b) an update on the South Street/Balmoral Street junction since the introduction of speed cameras, so that the Partnership can consider the appropriateness of approving a signalised crossing at this location.
