

Neighbourhood Infrastructure Improvement Fund

Template for Ideas Gathering

Name of Area Partnership: Calton Area Partnership

No.	Description of work required for Estimate - Please provide as detailed a description as possible including type of work required, number and type of items required/special considerations or known issues etc	Location of Work required for Estimate - Please provide a detailed description of the EXACT location (Street Name & Extents) of work required:
	Youth Engagement	
	Barrowfield	
1	Better Goals	
2	Bike Area-park	
3	Gymnastics equipment	
4	Ground Trampolines	
5	Downhill Slide	
6	Bigger Slides	
7	Skatepark	
8	Streetlights in the park	
9	Fencing for the park	
10	Greening	Space between Duke Street and Gallowgate
	Helenvale Flats	
11	Improve MUGA	
12	Monkey Bars	
13	Play equipment for smaller children	
	Bridgeton and Dalrnarnock	
14	Football Pitches	
15	An astro pitch in Reid Street Park but don't take the sand pitch down because it is good for pot shots basketball.	Reid Street Park
16	Dump to be made into a park	Springfield Road
17	Play equipment	Athlete Village
18	Fix Lights	Reid Street
19	More bins	Reid Street
20	Speeding Signs	Springfield between London Road and Dalrnarnock Road
21	Crossing	Springfield between London Road and Dalrnarnock Road
22	Youth Hub	Springfield Road

	Lilybank	
23	Re-surfacing: Areas outside and inside perimeter fence where tarmacadam surface was laid 1990 and has never been renewed or properly maintained and this area is now in a bad state of repair. Resurfacing of area is required as a matter of urgency and this is why we are populating and returning document for Neighbourhood infrastructure Improvement Fund.	48 Methven Street Lilybank Glasgow G31 4RB
24	Play Area / Sports Pitch Upgrade: Helenslea Play Area and Sports Pitch are the property of LES and my understanding is that £20,000 was ringfenced 3 years ago to upgrade both areas however this upgrade has never been actioned. Plans have been drawn up for the works that need to be carried out but no further action has been taken.	48 Methven Street Lilybank Glasgow G31 4RB
25	Resurfacing of the road and pavement on Methven Street	Methven Street
	PEEK	
26	London Road around Bridgeton Cross	Community Consultation feedback suggests the following improvements: another crossing, more traffic lights, traffic calming, dropped kerbs at crossing points for prams, disabled and those with poorer mobility.
	West of Scotland	
27	Skateboard park	Gallowgate at Corner of Millerston Street
28	Security cameras (cctv)	David Court, G40 2ud
	Barrowfield and Camlachie CC	
29	Road resurfacing Stamford Street Barrowfield Street	Street resurfacing outside number 35
30	Handrail top Stamford Street	Access point at roundabout top Stamford Street
31	Lighting in the park/street furniture	Park

32	Stairs side of park for access	Side of Barrowfield Park – access to new road Dalserf Street
33	Pathway/flowerbeds/seating/lighting dog walk area.	GCC land at top of Stamford Street facing KFC.
34	Some street seating corner Barrowfield Drive with flowerbed.	Barrowfield Drive
35	Fencing around park	Barrowfield Park
36	Road signs that direct public to Community Centre carpark	
	Parkhead Housing Association	
37	Provide additional street lighting	Corner of Dechmont St/Springfield Rd
38	Relevelling of slabs & removal of roots	Whitby Street
39	Provide street furniture & planting	Parkhead Cross
	Calton CC	
40	Paths are dangerously subsiding and require full repairs and resurfacing to make this area safe for pedestrians, wheelchair users, prams and people on bikes.	All paths through open green space between London Road, Green St, and Claythorn Park.
41	Pavement requires resurfacing as is uneven due to many patching jobs following multiple utility works. This street receives heavy footfall from both cyclists and pedestrians accessing Glasgow Green daily.	Claythorn Park
42	CCTV to be installed at bridge on Barrack St, requested by Police Scotland, to improve safety in surrounding area due to ongoing and historical ASB in this area. This will allow PS to better monitor Barrack St from Duke St, down to the Gallowgate, and the corner of Hunter St (not The Thistle). Main concerns in this area are well documented, including drug dealing and prostitution. A secondary request had been submitted by Dennistoun CC for column R15 on Duke St for similar reasons.	Barrack St lighting column R6A
	Bridgeton and Dalrnock CC	
43	<p><u>SIGNAGE:</u> (refer to BDCC document IDEA01)</p> <ul style="list-style-type: none"> Weather resistant banners for outdoor use to be mounted to light poles. Made of superior PVC flex material, resistant to tearing, moisture, and UV damage including wind flaps and lamination. 	<p><u>SIGNAGE:</u> (refer to BDCC document IDEA01)</p> <p>To be installed on alternating light poles on key streets in both localities (see highlighted areas in yellow on BDCC</p>

	<ul style="list-style-type: none"> • To be printed double sided using high resolution printing To include top and bottom pole pockets • Estimate to include for poles and mount Banner design to be coordinated with Bridgeton and Dalmarnock Community Council Brief for Banner design: <ul style="list-style-type: none"> ○ Sign text to welcome people to Bridgeton and Dalmarnock / create a slogan for the area ○ Sign graphics to represent the history of the areas including prominent landmarks (for example Bridgeton cross or Dalmarnock Train Station) ○ To include vibrant colours • ○ Refer to similar installation in Shawlands (pictures included in document) • Size: c. 600 x 1200mm (final size dependant on design) <p>Number: 50 minimum</p>	document) including: • Dalmarnock Road • Main Street • London Road • Springfield Road • Dunn Street • Clyde Gateway • The Green Rd
44	<p>COMMUNITY ORCHARD (refer to BDCC document IDEA02)</p> <p>Converting the area on Birkwood Street highlighted below into a community orchard / growing area, combined with the creation of a mural on the adjacent blank gable wall celebrating local history and identity. Works to include:</p> <ul style="list-style-type: none"> • Site Preparation - clear and clean the site, removing rubbish and overgrowth. Prepare soil for planting, including testing, conditioning, and levelling as needed. • Installation of Infrastructure - including perimeter fence & pathways Orchard Creation - Plant a diverse orchard with fruit and nut trees, herbs, and pollinator-friendly plants. • Include allowance for seating and a space for a small community gathering. Include for signage to educate visitors on the trees and sustainable growing. • Heritage Mural - Commission a mural on a blank gable wall overlooking the site. Work with the community to reflect local history, culture, and shared values in the design. 	<p>COMMUNITY ORCHARD (refer to BDCC document IDEA02)</p> <p>Area of land on Birkwood street between Dalmarnock Road and Woddrop Street - Highlighted in red below. Area for mural highlighted in yellow on document.</p>
45	<p>RAINWATER MANAGEMENT (refer to BDCC document IDEA03)</p> <p>Retrofit SuDS into public realm areas and look to manage rainwater through large public building roofs</p>	<p>RAINWATER MANAGEMENT (refer to BDCC document IDEA03)</p>

	<p>such as schools and the Glasgow Women's Library via raingarden planters. Modular raingarden planters are available from suppliers including GreenBlue Urban, SuDSPlanter and Meristem Design for example. Raingarden planters would enhance climate and flood resilience while also providing amenity and biodiversity benefits for residents and the environment. There is the potential to tie in with environmental school curriculum and public education.</p>	<p>To be installed on accessible downpipes or in front of building entrances draining large roofs on public buildings in the BDCC area, for example:</p> <ul style="list-style-type: none"> • Riverbank Primary School • Glasgow Club Emirates Arena • Glasgow Club Crownpoint – likely accessible downpipe(s) • Legacy Hub • Bridgeton Community Learning Campus • Gateway Church – accessible downpipe(s) • Sacred Heart Catholic Church – accessible downpipe(s) • St Mary's RC Church – accessible downpipe(s) • St Mungo's Academy, Glasgow – accessible downpipe(s) • Glasgow Women's Library – accessible downpipe(s)
46	<p>REWILDING (refer to BDCC document IDEA04)</p> <p>The proposal is for the introduction of more greenery including wild flowers, snow drops and other flowers as well as well as new trees across Bridgeton and Dalmarnock as shown in the images in the document.</p>	<p>REWILDING (refer to BDCC document IDEA04 for map locations)</p> <ul style="list-style-type: none"> • Corner of Main St. & Rumford St. • Main st. opposite Laird Place exit • Dunn Street • Corner of Muslin Street & Dalmarnock Road <p>Springfield road rain gardens</p>
47	<p>BRIDGETON CROSS & MAIN STREET FURNISHINGS (refer to BDCC document IDEA05)</p> <p>This proposal for NIIF funding is a request for furnishings around Bridgeton Cross and potentially surrounding areas. BDCC appreciates the excellent work carried out to restore the Umbrella, but notes that the area around it, or the cross as a whole, is rather grey and dull. This request includes planters, hanging baskets, new benches, some lighting and a community notice board. Please cost the ideas individually by section and by individual unit price. The request comes in two parts. Please prioritise part 1 and take part 2 into consideration.</p> <p>Section 1 Bridgeton Cross</p>	<p>BRIDGETON CROSS & MAIN STREET FURNISHINGS (refer to BDCC document IDEA05)</p> <p>Bridgeton Cross and Main Street</p>

	<p>1. Community Notice Board - this is essential to keep the community updated with events in the area, including those of the CC. Ideally, it will be a large one, with enough space for all community notices. BDCC will happily take responsibility for placing signs within the noticeboard, communicating with and helping to facilitate local campaigns to spread their information.</p> <p>2. Planters - BDCC notes the existence of 6 planters already at the Cross. However, the contents of these planters are rather sparse, containing what amounts to shrubbery and offering very little that's aesthetically pleasing. Thus, we propose replacing the contents of the 6 existing planters with some more colourful flowers, along with 6 more planters - these would be placed more strategically in a circle around the cross, surrounding the area in colour, rather than just being in a row like now. See the first image below for current planters and the second for an example of something more colourful. We would also request planters in two other places. (1) In the ample space outside the Credit Union (CU), crossing James Street from Bridgeton Cross. This patch of ground has a lot of potential for furnishings and decoration. (2) Between the new iCafe and the Library - a planter here would sit at the head/end of ORR street and create a connection between both the cafe and the library.</p> <p>3. Benches - BDCC notes 11 existing stone benches. These are rather unsightly and offer no back support, making them rather uncomfortable. Ideally, all of these benches will be replaced with more functional benches that offer back support. BDCC notes objections to wooden benches as being a fire hazard. Thus, we suggest new design metal benches in a variety of colours, see the example below. Ideally, the benches will be replaced 1 for 1; however, we note that the metal benches are larger and may require some readjustments to the final number. We also request a bench placed in the area outside the Credit Union, mentioned above. And request 2 benches, 1 placed on either side of the requested planter in the area between the Library and the new iCafe.</p> <p>4. Hanging Baskets/Designer Lamp Posts - BDCC notes the 4 strange metal poles at Bridgeton Cross (with another one at the credit union). These serve no aesthetic purpose and look rather dilapidated. Ideally, these will be removed and replaced with designer lamp posts, coupled with</p>	
--	--	--

	<p>some hanging baskets. Optional hanging baskets may be placed around the Umbrella itself. We also request a designer lamppost at both the space outside the CU and the space at Orr Street.</p> <p>5. Lighting - on or perhaps between the trees, either on trunks or within leaves. There are 2 sets of 3 trees at the cross. The 1st image below shows previous lighting that no longer functions, presumably from Christmas. The lights requested should be solar-powered fairy lights. We additionally request the same setup on the 3 trees outside the CU.</p> <p>Total Units:</p> <ul style="list-style-type: none"> • Notice Board x 1 • Planters x8 (6 for the cross, 1 for the top of Orr Street and 1 for outside the Credit Union at the junction of Main Street and James Street). • Benches x 14 (11 if we are to replace 1 for 1 at Bridgeton Cross, and 2 for the top of Orr Street and 1 for outside Credit Union). • Hanging Baskets x4? (Dependent on whether those strange poles remain or are removed. They could be replaced with fancy street lights. Please provide a price on 1 basket, regardless, for future reference). • Designer Lamp posts x 6 (To replace the poles) • Solar Fairy Lighting x 9 (to cover 9 trees) <p>Section 2 - Main Street (Further considerations)</p> <p>***Please see these suggestions as separate from section 1. Bridgeton Cross is the heart of the community, and it makes sense to focus our decorative plans there. Yet, it should be considered that Bridgeton itself is a central location and that the streets leading off of the cross should also be much more aesthetically pleasing, specifically Main Street. To this end, we offer some additional ideas to make the area more attractive. These requests are separate from the main requests at Bridgeton Cross, but should be actively considered to improve the aesthetics of the area. To do this, we will split Main Street up into two sections. Section 1 from Bridgeton Cross to the bend at the junction of Mackeith Street and Section 2 from Mackeith Street to Newhall Street. Section 1 is part of the main commercial area of Bridgeton. It is often the first part of Bridgeton people see when coming from Glasgow Green along James Street, certainly in cars. The beginning of the section at Mackieith Street contains a metal barrier facing the health centre. This barrier could be</p>	
--	---	--

	<p>improved with some hanging baskets placed along it to give a nice welcome to the commercial area. Furthermore, there is a lack of street lighting in this section. As such, we also propose the introduction of designer street lights along this section, again with hanging baskets. 3 on each might be a suitable number here. Some additional planters in a couple of the spaces between the black poles on the side of the health centre would also be an improvement. Section 2 would be a similar idea. There are currently around 26 street lamps with lamp posts from Newhall Street to Mackeith Street. Replacing these with designer street lamps, coupled with hanging baskets, would be our first choice. This would boost the aesthetics of the entire street. Failing new street lamps, we would request hanging baskets for the existing lampposts. A number of planters here would also be a strong addition. These could be placed within specific distances of each other along the street. A “Welcome to Bridgeton” sign arching across the street at the Newhall Street end would be another massive improvement and something that could be seen from Clyde Gateway Road, as you come across Shawfield Bridge. We are being more vague about numbers here, as this is a secondary part of the request. We would be happy to flesh out these ideas further. To help with the second part of this request, we ask for pricing on planters, hanging baskets and designer lampposts as individual units. This would be most useful for ongoing planning.</p>	
48	<p>MURALS (refer to BDCC document IDEA05)</p> <p>As part of our ongoing commitment to community pride, regeneration and cultural expression, Bridgeton and Dalrnarnock Community Council is seeking NIIF Funding to commission a large-scale public mural in the heart of Bridgeton. The mural will be a vibrant celebration of the area's rich heritage, resilience, and future aspirations.</p> <p>Brief for Mural Design: The mural should be put out for consultation to find an appropriate artist. Possible ideas could include;</p> <p>1. Industrial and Working-Class Heritage - Depict scenes from the areas shipbuilding, engineering, and textile past. - Workers leaving the factories, steam</p>	<p>MURALS (refer to BDCC document IDEA05)</p> <p>Above Bridgeton Train Station</p> <p>Where London Road meets Abercrombie Street (on the side of Sinclair's Cakes).</p> <p>At Birkwood Street - Refer to Idea 02</p> <p>Building which houses main street medical practice.</p>

	<p>trains, or tramcars. - Women munitions workers during WWII.</p> <p>2. Historic Landmarks - Bridgeton Cross and the Umbrella - The Olympia Theatre/Library - The old railway arches and red sandstone buildings</p> <p>3. Nature in the City - Glasgow Green – trees, the People’s Palace, the Winter Gardens - Wildlife that appears in the area – foxes, birds, squirrels - Floral borders using thistles or wildflowers found locally</p> <p>4. The People of Bridgeton and Dalmarnock - Portraits of real or stylised residents from different eras; shopkeepers, young people, elders - Faces of community today.</p>
