Greening the city and street trees update noted etc.

3 There was submitted and noted a report together with a presentation providing an update on the Greening the City Programme and other street tree activities, advising of

(1) the various strategies and initiatives in place including the Glasgow Tree Plan to manage existing trees and increase the tree canopy of Glasgow with the Clyde Climate Forest strategy also required to increase planting with aims to have 18 million trees planted throughout the Glasgow City Region by 2030; and

(2) the budget allocation for 2024/25 and 2025/26 for the Greening the City Programme together with the other funding streams, as detailed in the report.
