Hillhead Area Partnership Update: September 2026

This report is in response to actions points raised by the area partnership to the HSCP representative.

The HSCP representative does not hold contact information for each HSCP department nor do they have links with each service manager.

There is information available on the HSCP website and general enquiries can be made to the HSCP using this online form [Contact us | Glasgow City Health and Social Care Partnership]

Action Point 1. Detailed information on how they are supporting the mental health of students and young people, including the services that are available to them	On the day of the discussion, this question was understood to be in relation to teachers and what support they are receiving to support students/young people. It is beyond the realistic expectations of the HSCP representative to provide the level of detail that has been requested. The HSCP response on the day of the discussion highlighted the Health Improvement Training Calendar that is available for education staff. Please see link below: Glasgow City Health Improvement Training Calendar - NHSGGC

	The Health and wellbeing website was also discussed as a resource for education staff working in Glasgow City. Additional information, resources and training specific to education staff working in Glasgow City on the Education Health and Wellbeing Website. The content on the website has been quality assured by our Glasgow City Health Improvement Team and has been developed for Early Years, Primary and Secondary establishments. For further information on Education staff training and support, the area partnership will be required to contact Glasgow City Council Education department. There is a suite of information on the Glasgow City HSCP website in relation to children and young people's mental health and resources available. Please click the link for further information Child and Youth Mental Health - NHSGGC
Action Point 2. An update on vulnerable individuals who have been removed from the GP surgeries, including guidance on how they can register	It is beyond the realistic expectations of the HSCP representative to provide the level of detail that has been requested. NHS Inform provides information on registering with a GP Registering with a GP practice | NHS inform If anyone is having difficulty finding a GP practice in their area that is accepting new patients, you can get in touch with the registration teams within National Services Scotland. They'll be able to provide advice and assist you with the registration process.
Action Point 3. An update on Woodside Health Centre, detailing the services available to	There is a list of services available at Woodside Health Centre on the NHS GGC website. Please click link to access Woodside Health and Care Centre - NHSGGC

elderly residents as well as information on the former Woodside Facility and the services currently offered there	Information on Barr Strett Health Hub and the service provided are available on the NHS GGC website Barr Street Health Hub - NHSGGC
Action Point 4. Update on the Church Street refurbishment, including the stage of process	No update – Discussions are ongoing between HSCP and GCC.
