

Police Scotland ward update noted etc.

7 There was heard a report by Sergeant Craig Thomson, Police Scotland, advising the Partnership that

- (1) crimes of violence had reduced significantly, nearly by half and the number of crimes of dishonesty had been minimum, however there had been an increase in the number of crimes committed;
- (2) drug offences had increased, which was a result of Police Scotland's success in dealing with such offences; and
- (3) traffic offences such as speeding had increased, and Police Scotland would continue to conduct targeted days of actions and sustained actions to tackle this issue.

After consideration, the Partnership

- (a) noted the report;
- (b) highlighted concerns regarding speeding traffic within the Ward; and
- (c) thanked Sergeant Thomson for the update and the work carried out by Police Scotland in the ward.
