NET ZERO AND CLIMATE PROGRESS MONITORING CITY POLICY COMMITTEE'S MINUTES.

Hybrid meeting, 22nd September 2026.

Net Zero and Climate Progress Monitoring City Policy Committee.

Present: Lana Reid-McConnell (Chair), Susan Aitken, Blair Anderson, Declan Blench, Abdul Bostani, Stephen Curran (substitute for Thomas Rannachan), Stephen Docherty, Mhairi Hunter, Eunis Jassemi (substitute for Eva Murray), Ann Jenkins (substitute for Marie Garrity), Matt Kerr, Malcolm Mitchell and Roza Salih (substitute for Chris Cunningham).

Apologies: Chris Cunningham, Marie Garrity, Eva Murray and Thomas Rannachan.

Attending: E Paton (Clerk); G Slater (for the Executive Director of Neighbourhoods, Regeneration and Sustainability); and I Campsie (for the Director of Communication and Corporate Governance).

Glasgow Climate Programme update noted.

1 With reference to the minutes of the City Administration Committee of 21st May 2026 (Print 2, page 47) when the revised Climate Plan was approved, there was submitted and noted a report by the Executive Director of Neighbourhoods, Regeneration and Sustainability providing an update on the emissions in Glasgow and future climate reporting plans, advising

(1) that Glasgow's Climate Plan 2026-2030 continued to have a target to become a net zero carbon city by 2030 and also incorporated the aspiration of a city resilient to climate change;

(2) that in relation to citywide emissions and as part of the revision, progress towards the net-zero carbon target would be monitored against the Carbon Budget developed from the data used in the creation of Glasgow's Net Zero Routemap as outlined in the report;

(3) of the Department for Energy Security and Net Zero sectoral and source emissions for the period 2006 to 2024, as detailed in the report; and

(4) that with regard to the evolution of citywide emissions reporting, the publication of the Net Zero Routemap, the Scottish Climate Service had became the national standard area-wide greenhouse gas emission reporting across Scotland.
