

Appendix 2

This spreadsheet provides information on proposed woodland creation sites within the draft CDP2, and all tree planting completed in parks and open spaces in the 2025/26 planting season. This includes woodland whips, standard trees and fruit trees, and hedgerow trees. Sites and tree number are provided for every ward, and a summary sheet provides the total for each ward.

A new web mapping app has been developed and is now being used to gather information about tree planting to deliver the Tree Plan from 2022/23 to 2025/26. Once populated with tree planting carried out to date this will be updated annually to maintain an accurate record of all new tree planting.
