Previous and Future Planned Roads Works – Ward 22 Area Partnership Update

Purpose of Report:

To provide Area Partnership with an update in terms of roads works that have been completed and planned for Dennistoun.

Recommendations:

It is recommended that the Area Partnership note this report.

1. Introduction

1.1 At the previous Dennistoun Area Partnership on the 21st September 2022, a request was made to the Executive Director for Neighbourhoods, Regeneration and Sustainability to provide a further written report detailing previous and future road works in the Ward.

1.2 At the same meeting, a request was made to provide an interpretation of what 'planned work's' means in terms of repairs on the ground.

2. Background

2.1 Following the Area Partnership meeting, email correspondence was provided by Andy Mollon, Head of Roads, to Councillor Elaine McDougall, Councillor Allan Casey and Councillor Anthony Carroll detailing all planned and reactive works which had been undertaken in Ward 22 since 2017.

2.2 The list of planned works undertaken have been provided in Appendix 1 of this note.

2.3 Within Appendix 2 of this note, a list of all works relating to any safety defect noted as part of our safety inspection regime or reported to the Council on the road network is provided. This list is colour coded where the green highlights work which has been completed, amber highlights locations which have either been completed and need to be verified or have planned works associated with them. This means that an interim repair has been undertaken until a permanent repair can be completed.

2.4 Planned works are works which will be programmed to take place at a later date following a temporary repair or because a safety inspector has determined that his/her assessment of the risk of harm to anyone is low and works are not required immediately.

2.5 A temporary repair is put in place to ensure the immediate safety of a road asset user and remains in place until a permanent repair can be undertaken. Any permanent repairs could take up to 2 years to have programmed and a repair undertaken on site.

2.6 The Council's inspection regime and criteria for road assets means that any temporary repair or any defect which has been assessed as not needing any immediate repair will be continuously monitored and if a defect does deteriorate then repairs can be accelerated via a temporary repair or the permanent repair being moved up the programme.

2.7 It is the Council's policy to undertake first time permanent repairs where possible but the impact of weather events and traffic movement mean that on occasions temporary repairs may be required until such time when a permanent repair can be safely undertaken.

2.8 A copy of the Council's Road Safety Inspection and Repair Manual can be found using the following link: - https://www.glasgow.gov.uk/councillorsandcommittees/viewSelectedDocument.asp?c=P62AFQDN0GDNNTZ381

3 Recommendations

3.1 It is recommended that the Area Partnership note this report.

Appendix 1 - Carriageway Improvement Works - Resurfacing or Major Patching

Street	Extents	Treatment
Firpark Street	LPR 5 to LPR 13	Carriageway resurfacing
Armadale Place	Full Length - WARD 22	Carriageway resurfacing
Ark Lane	Full Length - WARD 22	Carriageway resurfacing
Viewpark Avenue	(1980m2) - West side from start of central reservation south for 180m	Carriageway resurfacing
Broompark Drive	(2700m2) - Full length	Carriageway resurfacing
Garnock Street	(1400m2) - Full Length	Carriageway resurfacing
Rosemount Street	(700m2) - from house No.78 to Kilberry Street	Carriageway resurfacing
Lockhart Street	(1030m2) - Full Length	Carriageway resurfacing
John Knox Street	Full length	Carriageway resurfacing
