Glasgow Safe Partnership – Potential future visits noted.

10 There was heard a verbal update by Tom Jackson, Community Empowerment and Equalities regarding the Partnership visiting Police Scotland and Scottish Fire and Rescue Services in 2023 to gain more insight into particular aspects of the services, whilst noting that possible topics that had been raised by members previously had been:-

(1) water safety;

(2) transport;

(3) call centres: and

(4) armed response;

After consideration, the Partnership noted

(a) Councillor McSporran had found previous visits extremely helpful and informative and welcomed the opportunity for more;

(b) any topics that members would like covered by a visit should be submitted to Tom Jackson; and

(c) that both Police Scotland and Scottish Fire and Rescue Services were both happy to facilitate any future visits requested by members.
