**Police Scotland ward update noted etc.**

**6** There was heard a report by Sergeant Craig Thompson, Police Scotland, advising the Partnership

(1) of a spike over the Easter period of anti-social behaviour and that the appropriate resources had been deployed to deal with the issue;

(2) that diversionary projects and continued work with campus police officers in Primary Schools and Secondary Schools would be deployed in the run up to the summer period to avert anti-social behaviour in the ward; and

(3) of the continued work locally and with the wider community in relation to drug offences that had a positive result and of a slight increase in dishonesty crimes that had involved reactive policing.

After consideration, the Partnership

(a) noted and thanked Sergeant Craig Thompson for the update; and

(b) raised questions in relation to nitric oxide incidents, young people on scooters and Deliveroo cyclists in the ward, which Sergeant Thompson responded to.
