Glasgow City Council

Ward 23 Area Partnership

Date: 16th June 2022
Report by Executive Director of Neighbourhoods, Regeneration and Sustainability

Contact: Andy Mollon Ext: 0141 287 9462

Options for Neighbourhood Infrastructure Improvement Fund – Area Partnerships within Ward 23

Purpose of Report:

To provide committee with:

1. List of recommended options for Neighbourhood Infrastructure Improvement Fund - Area Partnerships £1m ward spend towards Neighbourhood Infrastructure asset improvements.

Recommendations:

It is recommended that committee note this report and advise of their preferred options for the additional Neighbourhood Infrastructure Improvement Fund - Area Partnerships £1m asset improvement fund for Ward 23 to allow for early action and delivery of projects.

Ward No(s): 23 Citywide:

Local member(s) advised: Yes ☐ No ☐ consulted: Yes ☐ No ☐

1. Introduction

1.1 Investing in Glasgow's Neighbourhood Infrastructure network is crucial as it supports economic development and brings important social benefits. It supports the environment, builds resilience, helps to protect Glasgow's most vulnerable citizens, and contributes to the City's vibrancy and sustainability.

1.2 The Area Partnership will have the opportunity to inform officers of what work they would like to be considered within their ward. Following the recent budget allocation for the Council, Neighbourhoods, Regeneration and Sustainability have been allocated an additional £23 million Neighbourhood Infrastructure Improvement Fund - Area Partnerships to invest in repairs and/or improvements to existing or new neighbourhood infrastructure assets. This equates to an additional £1m per ward across the City. It is intended that this £1m of investment is considered, consulted, and informed by local communities and stakeholders into how it should be spent.

1.3 This investment also has the opportunity to assist neighbourhoods in improving their environment and community through initiatives to mitigate littering, fly-tipping, and improvements to the general streetscene remit with improvements to areas not covered by regular green maintenance.

1.4 The investment will support key themes set out in the Council's Strategic Plan, Active Travel Strategies and Traffic and Road Safety Plans. It will support these strategies by maintaining and improving transport infrastructure throughout the City leading to a safer and securer transport network for all those travelling within the City. Improved road network condition will assist in the delivery of effective transportation services.

1.5 This Investment will also assist in promoting Glasgow as a Cycling City by delivering a road network suitable for all modes of active travel. It will bring health and well-being benefits to our residents and will contribute to Glasgow's aim of being one of the most sustainable Cities in Europe.

1.6 The strategy aims to provide the most cost-effective solutions by delivering the most appropriate and effective treatments to our neighbourhood infrastructure assets. This will include a mix of differing carriageway resurfacing options, solutions to address deterioration in our footways, street lighting, traffic signals, drainage infrastructure and street furniture as well as provide community led improvements to all open space.

1.7 Consideration of Glasgow's Liveable Neighbourhoods must be accounted for and this will enable areas to be accessible and healthy places that allow people, of all ages and abilities, out to play and socialise in their local area. Neighbourhoods should perform in such a way that maximises the social, economic, and environmental benefits of the area through interventions that improve localities and place and help to reduce the city's dependency on cars by making walking, cycling and public transport first choice. Our Neighbourhood Infrastructure investment strategy will also encompass the fundamental principles of the Council's Liveable Neighbourhoods ethos.

1.8 All suggested schemes will be assessed and placed on a ranked list and works are prioritised by assessing condition, risk, and community benefit. If the scheme is of particular importance to the community, any supplementary information on its community

benefit will assist to ensure that local knowledge will be used to improve outcomes for local people.

2. Local Engagement

2.1. Public consultation and engagement form the key element of the investment strategy, ensuring a significant proportion of the investment is informed by local communities and a variety of stakeholders including: -

- Elected Members
- Community Councils
- Resident Associations
- Housing Associations
- Public Transport Operators
- Police Scotland
- Scottish Fire and Rescue.

The Council has received and used feedback from these stakeholders to assist us in determining our priorities for 2022/23.

2.2. Recent investment strategies helped to improve the level of customer satisfaction, which is measured by an annual household survey. Although road condition with Glasgow roads has fallen slightly in the last 12 months, Glasgow City Council still remains one of the best performing Council's in Scotland in terms of road condition and continue to remain in the top quartile for performance in this area.

2.3. Data from a number of sources is also used in addition to the information received via public consultation to assist in determining which elements of neighbourhood infrastructure should be considered for improvement and/or maintenance. Sources include safety inspections, the Road Condition Index, public liability claims, bus & taxi surveys, inspections, and condition assessments.

2.4. Officers will work with local communities to build participation and engagement around where the additional Neighbourhood Infrastructure Improvement fund will target in terms of improving the condition of neighbourhood infrastructure assets in that area. This engagement will begin with the circulation of this report for the Area Partnerships to consider followed by presentations by officers at the Area Partnership. These presentations will detail works already programmed for the area termed 'Business as usual' and will provide guidance and clarity over proposals being made by the Area Partnerships for the additional funding. This will take the form of officers presenting our works packages for the ward covering: -

- Road resurfacing and patching
- Footway improvement
- Street Lighting investment
- Drainage repairs including gully cleaning
- Traffic Signal – upgrade of existing or new provisions such as puffin crossings
- Street Furniture improvements.

This report seeks to gauge opinion of the Council's proposals for works within the ward and to receive proposals for work that the area wishes to see the additional £1m be spent upon. The team has provided some suggestions for spend in Section 3.5 to be considered by the area.

3. Suggested Projects for Neighbourhood Infrastructure Improvement Fund - Area Partnerships

3.1 Whilst it is recognised that engagement with communities does not follow any external timescale, it is understood, where possible, that the Neighbourhood Infrastructure Improvement Fund - Area Partnerships is spent and projects delivered from the beginning of the financial year 2022-2023 but that the Area Partnership considers that actual delivery of any proposed and agreed scheme may be delivered over a 2-year period.

3.2 Any scheme or project which is identified by an Area Partnership must still follow the engineering principles followed by the Council's maintenance teams, in terms of repairs or refurbishment of an asset or the Council's engineering teams when considering any new and additional asset to be introduced i.e. new street furniture, additional street lighting, introduction of traffic signal-controlled crossings.

3.3 As part of the Ward Partnership engagement, Council officers will provide some recommendations in relation to potential ideas or schemes that the Ward Partnership could consider for the £1m investment available. The form of ideas can consider any of the following: -

- Preventative measures for fly-tipping, concreate blocks and CCTV
- Public Realm improvements (benches etc)
- Improvements to council owned land that has no maintenance schedule
- Road safety measures/traffic calming
- Road resurfacing and patching
- Footway improvement
- Street Lighting investment
- Drainage repairs including gully cleaning
- Traffic Signal – upgrade of existing or new provisions such as puffin crossings

3.4 It must be noted that any potential investment idea that is considered must be able to be implemented on an area which is maintained at public expense or Council owned i.e. public open space, adopted roads or is in relation to a neighbourhood asset which is already maintained at public expense. This funding is not available to undertake work on private land.

3.5 Projects/Schemes to Consider: -

The following are a suite of projects for Area Partnership to consider. It should be noted that projects should be delivered by March 2024.
Chosen projects should total: **£1m**

Option Number	Location	Proposal	Potential Budget
1	Dumbarton Rd / Stewartville St	Upgrade traffic signal equipment (incl. equipment for visually impaired) and install tactile. New controller required.	£50,000

Carriageway Suggestions			
2	Great Western Road	Byres Road to Kirklee Road	£80,000
3	Dumbarton Road Eastbound	Between Fortrose Street and Hyndland Street	£45,000
4	Cleveden Road	At double roundabout at Beaconsfield Road	£23,750
5	Cleveden Road / Southampton Drive	At Burlington Avenue r/about	£27,500
6	Bradfield Avenue	Full length	£50,000
7	Kirklee Circus	Full length	£40,000
8	Banavie Road	Full length	£22,200
9	Cleveden Road	At Great Western Road	£19,500
10	Lindsay Drive	Daleview Avenue to Lindsay Place	£9,000
11	Marchmont Terrace	Observatory Road to School	£8,250
12	Whittingehame Drive	Great Western Rd to Arnwood Drive	£39,240
13	Lorraine Road	Full length	£12,600
14	Victoria Crescent Road	Price Albert Rd to Dowanside Road	£31,650
15	Partickhill Road	Gardener Street to Hyndland Road	£47,250
16	Weymouth Drive	Chesterfield Avenue to Leicester Avenue	£21,750
17	Highburgh Road	Byres Rd to Hyndland Road	£57,300
18	Kirklee Road	Great Western Road to Bridge	£75,600
19	Novar Drive	Polworth Avenue to Clarence Drive	£46,104
20	Beith Street	Full length	£75,600
Footway Suggestions			
21	Hyndland Road	North Gardner Street to Crown Road North	£18,360
22	Hyndland Road	Opposite Clarence Drive	£22,590

23	Winchester Drive	Colchester Drive to 28 Southampton Drive	£9,639
24	Kelvindale Road	On bridge over River Kelvin	£3,500
25	Highburgh Road	Byres Road to No.17 and No.6 to No.197 Byres	£22,410
26	Crown Road North / South	Queens Place to Crown Terrace West footway	£11,036
27	Beaconsfield Road	No.40 to Great Western Road	£2,100
28	Lauderdale Gardens	Clarence Drive to No.75	£6,120
29	Clarence Drive	No.21 to Lauderdale Gardens	£12,880
30	Julian Avenue	Lancaster Terrace Opp Redlands Terrace Lane	£5,985
31	Fortrose Street	Opposite No.11 to Hyndland School	£19,110
32	Hyndland Street	Partickhill Road to Dumbarton Road	£83,295
33	Crown Terrace	Between No.20 and No.12	£7,615
34	Kirklee Quadrant	Full length	£11,529
35	Weymouth Drive	Ashburton Road to Cleveden Road	TBC
36	Kirklee Circus	Full length	TBC
37	Highburgh Road from Junction of Byres Road /Hyndland Road to junction of Clarence Drive	Parts of cycle lane need resurfaced	TBC
Street Lighting Suggestions			
	Burgh Hall Street (Whole Length)	Renew/replace street lighting columns and new LED lanterns	
	Fortrose Street (Whole Length)	Renew/replace street lighting columns and new LED lanterns	
	Peel Street (Whole Length)	Renew/replace street lighting columns and new LED lanterns	
	Banavie Road (Whole Length)	Renew/replace street lighting columns and new LED lanterns	
	Hayburn Crescent (Whole Length)	Renew/replace street lighting columns and new LED lanterns	

	Turnberry Road (Lauderdale Gd-Hayburn Ln)	Renew/replace street lighting columns and new LED lanterns	£250,000
	Burgh Hall Lane	Renew/replace street lighting columns and new LED lanterns	
	Dyce Lane	Renew/replace street lighting columns and new LED lanterns	
	Hayburn Lane	Renew/replace street lighting columns and new LED lanterns	
	Partickhill Lane	Renew/replace street lighting columns and new LED lanterns	
	Peel Lane	Renew/replace street lighting columns and new LED lanterns	
	Westbourne Gds North	Renew/replace street lighting columns and new LED lanterns	£75,000
	Westbourne Gds South	Renew/replace street lighting columns and new LED lanterns	
	Westbourne Gds West	Renew/replace street lighting columns and new LED lanterns	
	Westbourne Rd	Renew/replace street lighting columns and new LED lanterns	
	Lancaster Terr	Renew/replace street lighting columns and new LED lanterns	
Miscellaneous Suggestions			
37	Various Locations	Drainage Repairs	£60,000
38	Various Locations	Road Marking refresh	£20,000
39	Locations to be determined	Provision of redeployable CCTV for fly tipping purposes Provision of fixed location CCTV for fly tipping purposes	£2K – £4K £26K – 36K

4 Next steps and timescales

4.1 June 2022 – Area Partnership to provide details of schemes covering all road assets to be considered for the additional £1m investment.

4.2 July 2022 – Area Partnership schemes to be assessed against existing scheme identification criteria, costed and feedback provided to AP about suitability and whether it can be delivered. At this point, the AP will be informed if the scheme will be successful or not for delivery in the time period of investment. Schemes will be prioritised to provide information as to when they would be indicatively delivered.

4.3 September 2022 to March 2023 – Information and updates will be provided to APs regarding programmes and expected completion dates. Updates with regards to

progress both locally and City wide will be provided to APs on a regular basis with frequency to be agreed.

5 Recommendations

5.1 It is recommended that committee note this report and advise of their preferred options for the additional Neighbourhood Infrastructure Improvement Fund - Area Partnerships £1m road asset improvement fund.

6 Policy and Resource Implications

Resource Implications:

Financial: This paper outlines options for how capital investment identified as part of the 2022/23 budget process by Glasgow City Council can be allocated within Ward 23

Legal: None

Personnel: None

Procurement: Early Actions will be procured via Council Maintenance Teams and existing GCC frameworks.

Council Strategic Plan: Investment in road infrastructure supports economic growth, supports the delivery of a vibrant and sustainable low carbon city and improves accessibility for the city's most vulnerable people. This report is aligned to CSP priority numbers 54 and 66.

Equality and Socio-Economic Impacts:	
Does the proposal support the Council's Equality Outcomes 2021-25? Please specify.	Generally supportive.
What are the undertaken. potential equality impacts as a result of this report?	An EQIA screening has been
Please highlight if the policy/proposal will help address socioeconomic disadvantage.	The preferred investment options presented within the report are expected to have a positive impact, particularly on those with physical disability and sensory impairment.
Climate Impacts: *Does the proposal support any Climate Plan actions? Please specify:*	The proposal supports the Climate Plan through the improvement of infrastructure for walking and cycling. Under Theme 3 of the plan, the proposal will support decarbonization of transport systems by helping to improve infrastructure for walking, cycling, wheeling, and reducing the
What are the potential climate impacts as a result of this proposal?	The impacts of this proposal will have a positive impact in assisting the Council in addressing climate issues.
Will the proposal contribute to Glasgow's net zero carbon target?	Yes the proposal will contribute to Glasgow's net zero carbon target.
Privacy and Data Protection Impacts:	None
