Neighbourhood Infrastructure Fund update noted.

3 With reference to the minutes of 12th April 2023 when the Area Partnership requested an update of the CCTV cameras previously approved from the Neighbourhood Infrastrusture Fund and that a report of all complaints received within the ward be provided, there was submitted a report by the Executive Director of Neighbourhoods, Regeneration and Sustainability (NRS), advising

(1) of an update on the progress of the Neighbourhood Infrastructure Fund that had been carried out and of the commitments to date that included discussions regarding CCTV cameras with an 8 to 10 week lead time, as detailed in the appendices to the report;

(2) of the community engagement process to inform the decision making process for the fund and a pilot programme of work, led by the Council's Centre of Civic Innovation, to research existing systems etc and would be working with Community Empowerment Services to run the system in a live testing environment, as detailed in the report;

(3) of redirected funding totalling £6m to be topped up in future budget years for road repairs, with details relating to the ward confirmed within the appendices to this report; and

(4) that Area Partnerships would still be expected to allocate the full £1m initially awarded.

After consideration, the Partnership

(a) noted the report;

(b) raised concerns in relation to the condition of the roads in the Cranhill area which Martin Lundie (NRS) advised of the inspection process, materials used and encouraged members of the public to continue to report issues via the MyGlasgow app; and

(c) approved 6 CCTV cameras from the Neighbourhood Infrastructure Fund including one for Danny's Park, dependant on signal testing of locations.
