Council Capital programme – Construction sector volatility and effects on inflation noted.

6 With reference to the minutes of Neighbourhoods, Housing and Public Realm City Policy Committee of 27th September 2022 (Print 3, page 371) noting the ongoing challenges of hyper-inflation within the construction sector caused in part by COVID-19, Brexit, the war in Ukraine and other factors and how this was affecting the delivery of the Council's Capital programme and referring the report to this committee for information, there was submitted and noted the said report by the Executive Director of Neighbourhoods, Regeneration and Sustainability.
