Neighbourhood Infrastructure Fund 2022/23 update noted – Request to Executive Director of Neighbourhoods, Regeneration and Sustainability.

3 There was submitted a report by the Executive Director of Neighbourhoods, Regeneration and Sustainability (NRS), regarding the Neighbourhood Infrastucture Fund, advising

(1) of an update on the progress of the Neighbourhood Infrastructure Fund that had been carried out and of the commitments to date that included 2 CCTV cameras, locations to be confirmed, with a 8 to 10 week lead time that would cost between £4,000 to £8,000 to fully implement and discussions regarding "off the shelf" Liveable Neighbourhood Projects for consideration, as detailed in the appendices to the report;

(2) of the community engagement process to inform the decision making process for the fund and a pilot programme of work, led by the Council's Centre of Civic Innovation, to research existing systems etc and would be working with the Policy and Corporate Governance team to run the system in a live testing environment, as detailed in the report;

(3) of redirected funding totalling £6m to be topped up in future budget years for road repairs, with details relating to the ward confirmed within the appendices to this report; and

(4) that Area Partnerships would still be expected to allocate the full £1m initially awarded and that a report would be provided to the next Partnership meeting with details of costings and Liveable Neighbourhood Projects for consideration, particularly the alignment of projects.

After consideration, the Partnership

(a) noted the report and raised questions in relation to the engagement process and timelines involved;

(b) discussed the importance of engagement with the wider community, particularly young people, local schools and to identify potential gaps in representation across the ward and of the alignment of the Royston and Dennistoun Liveable Neighbourhood projects; and

(c) requested the Executive Director of Neighbourhoods, Regeneration and Sustainability to investigate the highest reports and hotspots for fly-tipping in the ward to identify locations for CCTV cameras to be situated.
