Greater Pollok Area Partnership Infrastructure Fund 2022/23 – Position noted etc.

5 There was submitted a report by the Executive Director of Neighbourhoods, Regeneration and Sustainability (NRS) regarding the recommended options for spend towards Neighbourhood Infrastructure asset improvements,

(1) advising

(a) that following the recent budget allocation for the Council, NRS had been allocated an additional £23 million Neighbourhood Infrastructure Improvement Fund - Area Partnerships to invest in repairs and/or improvements to existing or new neighbourhood infrastructure assets, which equated to an additional £1m per ward across the City, and that it was intended that this £1m of investment would be considered, consulted and informed by local communities and stakeholders as to how it should be spent;

(b) of the aims and key themes that the investment would support, as detailed in the report;

(c) that as part of a public consultation, this council had received and used feedback from stakeholders to assist in determining priorities for 2022/23; and

(d) that any potential investment idea being considered must be able to be implemented on an area which was maintained at public expense or Council owned i.e. public open space, adopted roads or in relation to a neighbourhood asset which was already maintained at public expense, and was not available to undertake work on private land; and

(2) detailing the suite of projects to be considered and which should be delivered by March 2024, and the next steps and timelines as detailed in the report.

After consideration, the Partnership noted

(i) the report;

(ii) that, following a question by Bailie Hussain, further details on specific locations would be provided on a number of schemes being considered within the report;

(iii) a number of further suggestions made by members during the discussion; and

(iv) that any additional suggestions for priority areas would be welcomed by NRS.
