

## **Sustrans capital programme 2012/13 funding for Glasgow noted.**

**5** There was submitted and noted a report by the Executive Director of Land and Environmental Services regarding Sustrans funding for Glasgow for 2012/13, advising that

- (1) Sustrans received capital grant funding through the Local Government Finance Settlement and invited local authorities to submit funding bids through its Community Links Programme;
- (2) the Council had been successful in obtaining £260,000 of funding from Sustrans for various projects, as outlined in the report, for delivery in 2012/13, with the Council match funding any contribution from Sustrans, which had been achieved by utilising part of the Cycling, Walking and Safer Streets budget that the Council received from the Scottish Government;
- (3) local members would be kept informed of progress and consultation with local communities would take place as appropriate throughout the development and implementation of the projects as detailed in the report; and
- (4) Sustrans had offered an additional £2,500,000 of Capital grant funding, specifically for cycle schemes in Glasgow, which was currently being finalised and this funding would be targeted at enhancing Glasgow's existing cycle network and delivering additional cycle infrastructure projects prior to the Commonwealth Games.
