

## **Public Transport Provision projects - Acceptance of funding approved.**

**6** Councillor Richardson, City Convener for Sustainability and Carbon Reduction, presented a report regarding the proposed acceptance of capital grant funding from Transport Scotland (TS) and the Scottish Government for Public Transport Provision (PTP) projects in support of Glasgow's Low Emission Zone (LEZ), advising that

- (1) Transport Scotland had invited local authorities who had introduced LEZs and their neighbouring authorities to submit expressions of interest for grant funding to complement those zones; and
- (2) this Council had been advised on 28th November 2019 that it had been successful in obtaining £1.15m of funding from TS and the Scottish Government for its programme of PTP projects, as detailed in the report, with the works being scheduled to be completed by 31st March 2020.

After consideration, the committee approved the acceptance of £1.15m in capital funding from Transport Scotland and the Scottish Government for Public Transport Provision projects within Glasgow.
