

Clydesdale Amateur Rowing Club (CARC) – Presentation noted etc.

3 There was heard a presentation by Miki Lee Dale, Clydesdale Amateur Rowing Club regarding the work and remit of the Club, advising

- (1) that their mission was to allow the wider community to enjoy and share the social, psychological and physical benefits of being part of a diverse river community;
- (2) of the aims and objectives of the Club;
- (3) of the activities that took place both in the water and in schools to encourage youth participation;
- (4) that often the lack of appropriate clothing was a barrier to participation and how the grant from this Partnership's Area Budget helped to buy appropriate clothing, which in turn helped reduce anxiety for young people and those who delivered service; and
- (5) that currently in the Ward there were 150 participants and through Partnership engagement CARC hoped that this would double in 2019.

After consideration, the Partnership

- (a) noted the presentation;
- (b) asked various questions regarding the Club, which were duly answered by Miki Lee Dale; and
- (c) extended praise and thanks to the Club for the work that they were carrying out and hoped they would continue to expand.
