Violence Against Women and Girls

The table below outlines crimes usually associated with Violence against Women and Girls.

Domestic abuse of females has noted a 2.2% decrease compared to the same period PYTD. There is insufficient data to compare to the 5 year mean.

Rape/ Attempted Rape has noted an increase of 20.8% compared to PYTD, and an increase of 12.2% from 5 year mean for the same period. This increase is reflective of Q1 and Q2 23/24 figures and is the same as the pre-Covid-19 period in 2018/19, when 279 rapes/ attempted rapes were also recorded. It is of note that there are a number of cases where victims have reported several offences. We have also noted an increase in reports from male victims which is an area we have looked to increase public confidence in reporting incidents to police.

In April 2023, Police Scotland published our VAWG Strategy which aims to drive change through the development and effective prevention strategies, the pursuit of perpetrators and the creation of safe spaces for everyone to live freely and safely, ensuring women and girls live free from all forms of violence, abuse, exploitation, and harassment. As outlined in previous reports, in support of the strategy Greater Glasgow PPU have delivered several days of action and informative inputs encouraging reporting of sexual crimes. The increase in sexual crime reporting is encouraging, indicating an increase in public trust and confidence to report these crimes.

Indecent/ Sexual assaults have noted a decrease of 5.8% from PYTD, and a decrease of 4.6% from 5-year mean.

	YTD	PYTD	5 Year Mean	% Change 5Yr Mean	% Change PYTD	% Change in Detection Rate from 5 yr. mean
Domestic Abuse of Female	135	138	-	-	-2.2%	-

16 Days of Activism

A national Domestic Abuse campaign “16 Days of Activism” ran from 25 November 2023 to 10 December 2023 and called for an end to gender based violence.

OFFICIAL SENSITIVE: POLICE AND PARTNERS

Supporting the campaign Greater Glasgow Public Protection Unit attended seven High Schools across the East, North West and South of the city and delivered awareness inputs to over 1,000 pupils. These were well received by the pupils themselves who participated in recap sessions to capture and reinforce their learning about Domestic Violence. The popularity of these inputs was widely expressed by head teachers and further arrangements with other High Schools are planned for early 2024. Guidance and support was provided for various partnerships across Glasgow through participation in webinar events, seminars and external calendar events for the 16 days campaign. Campus officers also delivered inputs to five High Schools across the Glasgow South sub division with a focus on coercive and controlling behaviour and online safety. These were also well received and will continue into 2024.

Glasgow City Centre and West areas delivered leaflets and poster at commercial residences, student accommodations and educational establishments across the city.

'I am me' training and awareness was provided to local premises and High schools with the aim of creating safe spaces for women and girls. Safety talks and security guidance for students and staff at Glasgow University were also undertaken in alignment with VAWG strategy.

The 16 Days Campaign provided Greater Glasgow officers the opportunity to promote an end to gender based violence through education, awareness and proactive activity. The efforts of officers from Public Protection and Local Policing have been well received from partners and the public which allows us to conclude that it has been successful and worthwhile.

Anti-Social Behaviour

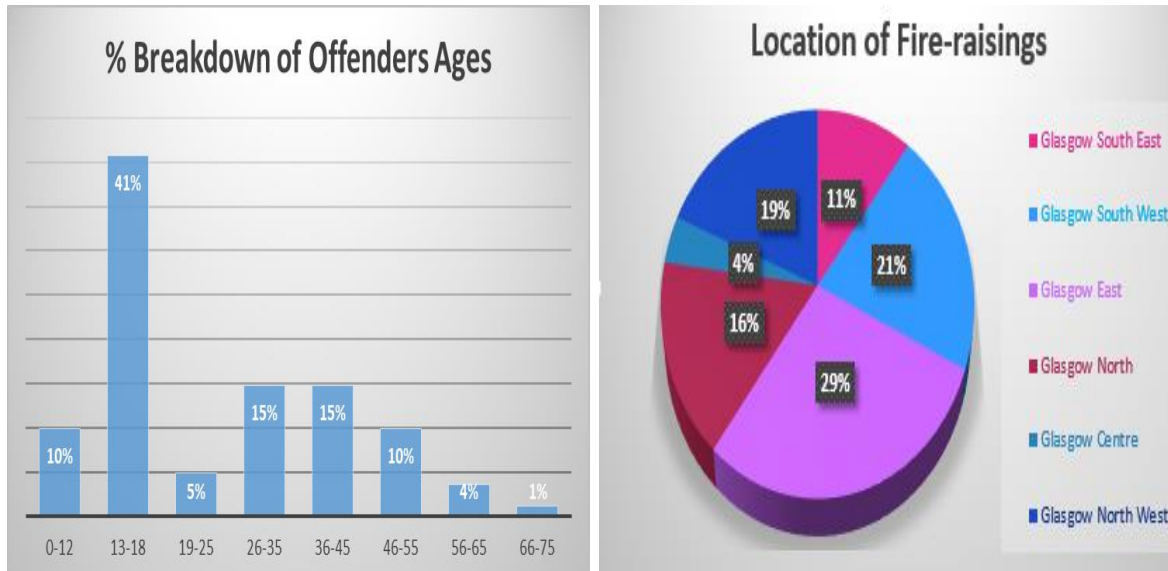

Crimes associated with anti-social behaviour have noted decreases compared to PYTD and 5 year mean.

	YTD	PYTD	5 Year Mean	% Change 5Yr Mean	% Change PYTD	% Change in Detection Rate from 5 yr. mean
BOP, S38 & S39 Crim Just & Lic (S) Act 2010	5860	6337	6746	-13.1%	-7.5%	-4.1%

**Includes Drunk and Incapable, Consume Alcohol in Designated Place Bye-Law, Drunk In Charge Of A Child, Drunk and Attempting Enter Licenced Premises*

Fire raising

From the 357 fire-raising crimes recorded this year, 77 were detected. Around 41% of accused were aged 13-18 years.

In Glasgow East the vast majority of incidents were investigated by CID and relate to vehicles being targeted. At this time there is no evidence to infer any of these crimes were committed by youths or indeed linked to Serious and Organised Crime (SAOC).

In Glasgow South-East, in the last year four wilful fire-raising have been detected, two have been committed by youths aged 11, 14 and 16 years. One incident was a fire to a school shed and the other was setting fire in a toilet within Hampden stadium. Only three in the year were linked to youth disorder. There were two fires linked to an ongoing feud in the Castlemilk area.

In Glasgow South-West there was a spate of wilful fire-raising's where cars were targeted in the same street, no motive or offenders were identified. There are no crimes reported where there are links, through intelligence, to SAOC or youth disorder.
