FESTIVE LIGHTING PROGRAMME 2024/25

Purpose of Report:

The purpose of this report is:

- (1) to advise members of the central funding available and the pricing guidelines for the 2024/25 festive lighting programme;
- (2) remind members of the 23/24 festive lighting programme; and
- (3) to seek agreement on the 24/25 programme and, where necessary, the allocation of additional funding.

Recommendations:

The Area Partnership is asked to:

1. note the 2024/25 festive lighting arrangements and the central funding available for the 2024/25 programme;
2. agree whether the 2024/25 festive displays and switch-on events are to be included in the 2024/25 programme;
3. notify any proposed new locations for assessment by NRS to determine the feasibility; and
4. approve the necessary funding for any additional costs over and above the central funding. This decision shall be confirmed at a special festive lighting meeting, held in October, following receipt of the updated pricing table.

Introduction

1. The Council took the decision to delegate funding for peripheral festive lighting to the Area Partnerships as part of the budget process for 20/21. A similar arrangement is proposed for the 2024/25 programme.
2. Each Area Partnership is awarded £3,600 central funding to meet the costs of erecting and maintaining festive lighting, usually at a single location.
3. Area Partnerships have the option to fund additional festive lighting locations.

7. The Area Partnership can nominate additional or alternative festive lighting locations to those delivered as part of the 23/24 programme. Locations not included within the 23/24 programme require to be notified to NRS. This will allow the feasibility and cost of the new locations to be assessed by the NRS festive lighting team to allow the 24/25 programme to be finalised by 30 June 2024.
8. The Area Partnership is invited to identify the locations where a switch on event is proposed to be held for either a Xmas or natural tree. Column mounted features will come on at the same time as the streetlights on the day of installation.
9. If the total cost of the delivering the festive lighting programme selected by the Area Partnership exceeds the £3,600 central funding, then the balance of the funding will require to be met by the Area Partnership from other funds.

Recommendations

10. The Area Partnership is asked to:
- (1) note the 2024/25 festive lighting arrangements and the central funding available for the 2024/25 programme;
 - (2) agree whether the 2024/25 festive displays and switch-on events are to be included in the 2024/25 programme;

- (3) notify any proposed new locations by May 2024 for assessment by NRS to determine the feasibility; and
- (4) approve the necessary funding for any additional costs over and above the central funding. This decision shall be confirmed at a special festive lighting meeting, held in October, following receipt of the updated pricing table.
