1. Introduction

The planning appeal is being made to the Planning Review Committee under the Town and Country Planning (Appeals) (Scotland) Regulations following the councils failure to determine application 24/00341/FUL made to Glasgow City Council validated on the 21st August 2024. The application was deemed refused on.

1.1 Proposed Development

The proposed development comprises a retail outlet on the ground floor with two flatted properties above. The flatted properties are for the uses of the developers and their family.

Please see Appendix 1 for the full details of the project specification.

1.2 Supporting Documents

The pictures relied upon for this appeal are noted in Appendix 2. These pictures illustrate the site as it currently stands. The drawings in Appendix 1 show the proposals for the site as my clients intends to develop. Numerous efforts were made both in writing and over the telephone to make contact with the planning officer. A two final telephone calls were made one prior one after a meeting, with my client, to confirm the details for the appeal to proceed. My client was advised to deal with any issues arising from the consultation process as part of this submission. However as of the date of writing no reply has been given from the council, the only consultee to respond. As soon as the report becomes available this will be issued to the review body. My client is unaware of any other outstanding matters that would prevent the development of this site.

1.3 Requested Process

The reason for the appeal is that my client is very keen to open the shop in Tollcross road and has been trying for over 12 months to get the planning application registered and approved. By December 2024, despite my hopes, the client opted to formally request an appeal on the basis of non determination. My client has actively pursued the planning department, through their agent, in an effort to secure progress or determine where the hold up was in order to progress. There has been no feedback on the application and my client is keen to resolve this matter as quickly as possible.

2. Reason for Refusal

The application was not refused nor was it progressed far beyond the registration and consultation process. There can be little reason to refuse this application, conditions can be placed on the applicant to ensure that all outstanding issues can be dealt with efficiently prior to construction commencing.

My client is very keen to open a retail outlet specialising in products from their heritage, they have all the necessary resources to commence the build requiring only the approval from the Council. This they feel has dragged on far too long and appeal now to the councillors to grant them permission.
