An annual inflationary increase has been included in the above rates to provide a consistency over the contract period.

- The Area Partnership is invited to identify the locations where a switch on event is proposed to be held for either a Xmas or natural tree. Column mounted features will come on at the same time as the streetlights on the day of installation.
- If the total cost of the delivering the festive lighting programme selected by the Area Partnership exceeds the £3,600 central funding, then the balance of the funding will require to be met by the Area Partnership from other funds.
- All new festive requests will be subject to NRS Street Lighting approval for electrical supply
