Glasgow Community Planning Partnership Governance Framework

Purpose of Report:

To consider proposed amendments to the Governance Framework.

Recommendations:

The Strategic Partnership is asked to:

- Approve the proposed amendments as detailed.

1 Background

- 1.1 The Strategic Partnership last amended the Governance Framework on [26 November 2024](#).
- 1.2 There are a small number of proposed amendments to formalise how the Partnership is organised to ensure good outcomes and effective decision making.

2 Proposed Amendments

- 2.1 The Glasgow Colleges Regional Board was abolished in July 2025. Sections 1.4 and 6.3.2 of the Governance Framework has been amended to remove this reference and updated to make reference that individual colleges now have responsibility to participate in community planning.
- 2.2 Third Sector organisations in the city are currently revising the approach to representation on partnership structures, following the disbandment of the Glasgow Third Sector Interface Network. This work is being led by Glasgow Council for the Voluntary Sector (GCVS) with a Third Sector Representation Framework being developed. Membership has been amended at sections 6.3.3, 6.4.3, and 6.5.5 to reflect the revised approach and to allow for memberships to be updated following elections due to be held later this year.
- 2.3 Adding Scottish Government Place Directors to the membership of the Strategic Partnership at 6.3.4, building upon existing relationships and the recently adopted Place Director and CPP Charter.
- 2.4 Clarification of membership eligibility at 6.1 and co-opted membership eligibility at 6.5.6.
- 2.5 The use of Artificial Intelligence systems to produce any form of recording of meetings is specifically detailed at 13.6 as requiring approval of the Partnership prior to use.

3 Recommendations

- 3.1 The Strategic Partnership is asked to:
 - Approve the proposed amendments as detailed.
