Movement Park SCIO PMGC Proposal – Update noted etc.

12 There was heard an update by Susannah Dale, Head of Communications and Impact at Movement Park, advising the Partnership that

(1) Movement Park's current facility in Whiteinch no longer meets the needs of the organisation and so they are working with the People Make Glasgow Communitues Programme to facilitate a move to the Glasgow BMX Centre in Knightswood and operate this facility under a long lease;

(2) Movement Park's interest in managing and operating the BMX Centre is directly aligned with Glasgow City Council's People Make Glasgow's Communities Process which aims to empower local organisations to take a more active role in the delivery of services from local venues;

(3) Movement Park is consutling with various stakeholders to better understand needs, priorities and concerns regarding creating a movement hub at the Glasgow BMX Centre; and

(4) the proposed plans include using the exisiting space under the BMX track and buiding out onto the back.

After consideration

(a) noted the update and thanked Susannah Dale;

(b) raised a series of questions which were answered by Susannah Dale; and

(c) requested that members get in touch with Susannah Dale for further information and discussion on how the proposal could impact their organisations.
