Appendix 2 – Proposed new licence conditions

Taxi Driver Licence Condition

1. The driver of a taxi, while in charge of a taxi as such, must at all times, accept credit/debit card and contactless payments via a card payment device and provide a printed or handwritten receipt for those payments upon request.

2. The driver of a taxi shall ensure that the card payment device is fully working before accepting any fares. Should there be a network outage affecting card payment devices or any other technical issue with the working of the card payment device, the driver of a taxi shall inform passengers as soon as they become aware.
