	Tollcross Park	Amenity greenspace painterworks
	<i>n.b. This list is not exhaustive</i>	
Agenda Item 2	Delegated Contract Awards	
Question Bailie Carroll	Looking for more details regarding Contract GCC006026CPU Landfill Consultancy Support (Full Tender) to Tetra Tech Consulting Ltd (01470149) for £450,000 for 84 months which was awarded 24 April 2026	
Response	This contract will contribute to the responsible management of landfill sites in Glasgow and support the council in transitioning landfill sites to a definitive closure state, reducing environmental risk and protecting the local surroundings. Sites are: South Cathkin Landfill, Cairnmuir Rd, Glasgow, G74 4GY Summerston Landfill, Balmore Road Glasgow, G23 5HD Kilgarth Landfill, Gartgill Road, Coatbridge, ML5 2EQ Wilderness Landfill, Balmuildty Road Glasgow, G64 3QQ Cathkin 1, Cathkin Road, Rutherglen, G73 5RS	

	The sites above have all seized operations and intaking of waste, with capping works and restoration phases fully completed as per statutory and licence requirements. Although these works have been completed, the environmental risk from the generation of leachate, landfill gas and contamination of surface water remains. Provisions are in place to minimise these risks with council staff and external contractors retaining an operational presence. The appointed consultancy firm will be expected to aid with these works, liaise with external bodies / regulators the Scottish Environment Protection Agency (SEPA) and contractors where required throughout the duration of the contract term. The scope of work will extend to all closed landfill sites, however South Cathkin and Summerston Landfills, with a particular emphasis on the latter, are where much of the consultancy work is anticipated to be directed.
