

Local Place Plans update noted.

7 There was submitted a report by the Executive Director of Neighbourhoods, Regeneration and Sustainability regarding an update on the delivery of the Local Place Plans (LLPs) delivery in Glasgow, advising that

- (1) the Planning (Scotland) Act 2019 had introduced a new right for communities to produce LLPs for their places, with scope for these plans or part of them to become a part of the Local Development Plan;
- (2) legislation stated that Local Place Plans might be prepared by a community-controlled body as defined in the Community Empowerment (Scotland) Act 2015 or by community councils established in accordance with the Local Government (Scotland) Act 1973 and as such, this would apply to a wide range of community organisations within the city, provided they could demonstrate that they met the criteria;
- (3) the Act set out the role of local authorities and that prior to the preparation of a Local Development Plan or in Glasgow's case, the next iteration of the City Development Plan, the planning authority was required to publish an invitation to local communities to prepare Local Place Plans, with information on the assistance available to do so, and on the manner in which, and date by which Local Place Plans must be prepared in order to be taken into account in the preparation of the Local Development Plan;
- (4) in order to support groups seeking to develop LLPs, guidance was developed to provide information and support for the process and requirements for their preparation and submission to the Council for validation and in 2024, following the required invitation to community groups to develop LLPs, limited funding was secured to support a first phase of LLP's in the city in line with the programme for the preparation of the proposed City Development Plan 2 (CDP2) and open call to community groups to bid for funding had been issued;
- (5) in the first phase 10 community groups had successfully bid for funding support, subsequently developed LLPs, all of which had now been validated and registered, with a further 4 LLPs having since been developed by community groups and validated and a further 5 which were currently in development, as detailed in the report; and
- (6) the current representation period for CDP2 was currently live until 18th November 2026 and of the next steps, including that the Planning Service would continue to support those groups seeking to develop LLPs.

After consideration and having heard a presentation by Mr E Curtis, Neighbourhoods, Regeneration and Sustainability, the committee noted

- (a) the presentation and report; and

- (b) the progress on the delivery of Local Place Plans by community groups across Glasgow and how they were being used to inform Planning delivery in the city.
