FESTIVE LIGHTING PROGRAMME 2026/27

Purpose of Report:

The purpose of this report is:

- (1) to advise members of the central funding available and the pricing guidelines for the 2026/27 festive lighting programme.
- (2) remind members of the 25/26 festive lighting programme; and
- (3) to seek agreement on the 26/27 programme and, where necessary, the allocation of additional funding.

Recommendations:

The Area Partnership is asked to:

- (1) note the lighting arrangements and the central funding available for the 2026/27 programme; and
- (2) approve the necessary funding for any additional costs over and above the central funding.

Introduction

1. The Council took the decision to delegate funding for peripheral festive lighting to the Area Partnerships as part of the budget process for 20/21. A similar arrangement is proposed for the 2026/27 programme.
2. Each Area Partnership is awarded £3,600 central funding to meet the costs of erecting and maintaining festive lighting, usually at a single location.
3. Area Partnerships have the option to fund additional festive lighting locations.

Assumes that the Parkhead Cross column features installation is supported by the other contributing Area Partnership

- NRS Festive Team have been informed the current Horticultural Contract, which includes supply of Christmas Trees, has come to an end. GCC Procurement will establish a new framework to invite suppliers to tender, as such this may now impact the cost of Christmas Trees from 2027.
- The Area Partnership is invited to identify the locations where a switch on event is proposed to be held for either a Xmas or natural tree. Column mounted features will come on at the same time as the streetlights on the day of installation.
- If the total cost of the delivering the festive lighting programme selected by the Area Partnership exceeds the £3,600 central funding, then the balance of the funding will require to be met by the Area Partnership from other funds.
- All new festive requests will be subject to NRS Street Lighting approval for electrical supply

11. Request received for Column Mounted Features and/or Xmas Tree at junction of Tollcross Road/Wellshot Road. Due to the age of the street lighting columns, they are not suitable for Column Mounted Features, however we have received approval for Xmas Tree to be located at corner footpath area at Tollcross Road/Braidfauld Street. The above table has been updated to reflect the Xmas Tree for the ward.

Recommendations

12. The Area Partnership is asked to:
- (1) note the lighting arrangements and the central funding available for the 2026/27 programme; and
 - (2) approve the necessary funding for any additional costs over and above the central funding.
