

## Improving Condition of Roads

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for decision	Cost
repair potholes on the roads, springfield, dalmarnock and london road	Will make it much safer both for drivers and pedestrians.	place based road maintenance	commonwealth village			
please sort the potholes in birkwood st, and surrounding dalmarnock road	It will stop our houses been shook to the core	place based road maintenance	birkwood st			
fill in potholes.	Better roads, less accidents.	place based road maintenance	dalmarnock road			
see first idea. roads requiring potholes fixed along kerb line	Better for road users including cyclists.	place based road maintenance	dalmarnock train station area			
the potholes are terrible	the flooding in Steel Street is terrible and Greendyke Street at the entrance of the park.	place based road maintenance	greendyke street/steel street			
painting 'no parking' markings on the road outside one of the main accesses to our building which needed on a 24/7 basis.	It will improve access to our building from the street and reduce occasional confrontations where other people have parked across our gate and reduce disruption to our activities, especially when we have events on.	safety crossings or road markings	fordneuk street (outside the gate to bridgeton bus garage).			

## Improving Drainage Systems

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for decision	cost
also fix issue with flooding outside dalmarnock station	Will make it much safer both for drivers and pedestrians.	flooding	commonwealth village			
fix the drainage problem at dalmarnock railway station. it is always flooded making it impossible to cross the road on either side of the entrance without getting drenched by passing vehicles.	Encourage people to use public transportation.	flooding	dalmarnock road			
sort out the drainage at dalmarnock station, there is always a puddle right outside it. on the other side of the road at the petrol station there is a similar issue.	Make the station more accessible, less treacherous in the winter.	flooding	dalmarnock road			
			dalmarnock road on side of train station the drains are blocked which cause a very large puddle to over lap between road and pavement from the traffic lights heading in towards dalmarnock station bus stop. also across the road around the garage area needs drained and road resurfacing.			
drainage and road surface outside dalmarnock train station next to the new build on dalmarnock road is long over due repair.	The repair would make it safer for road users and pedestrians alike.	flooding				
the drainage on dalmarnock road outside the train station	It will stop flooding everytime there is rain	flooding	dalmarnock road outside the train station			
please fix the big puddle that forms outside dalmarnock railway station. when it rains, a very large puddle appears that covers half the road.	Stop people getting soaked by cars when walking to the train station, prevent damage to road users caused by the hidden pot holes when the puddle forms	flooding	dalmarnock road, outside the railway station.			
fix the flooding on dalmarnock road.	Safer and cleaner for pedestrians and cyclists.	flooding	dalmarnock road. outside petrol station and train station.			
improving drainage on gallowgate to stop flooding as since new paving was installed several areas are unused during periods of inclement weather	Roads will be crossable	flooding	gallowgate, bain street, gibson street			
improving drainage systems	-	flooding	parkhead cross			

## Improving Open Spaces

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for Decision	Cost
Ensure CCTV working or get rid of eyesore pole if not working)	<p>Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a feeling of respect</p> <p>The area will be cleaner because people will have bins to dispose of their small rubbish (cans, wrappers &amp; co) and dog poop bags. Less fly tipping overall.</p> <p>In addition, the big Tesco across Dalmarnock bridge should be forced to put measures so their trolleys cannot be removed from their parking lot. The Athlete's village is covered in abandoned Tesco trolleys.</p>	cctv	calton			
Cameras should be installed as there is increasing amount of youth on electric and petrol motorbikes on both payments and roads (I have seen children as small as 5 on the road with mini motorbikes and no adult supervision). Besides the tremendous noise and antisocial behaviour, someone is going to get killed, either the child, a pet or an adult that get collided at 30mph by one of these children/youth	Cameras should be installed as there is increasing amount of youth on electric and petrol motorbikes on both payments and roads (I have seen children as small as 5 on the road with mini motorbikes and no adult supervision). Besides the tremendous noise and antisocial behaviour, someone is going to get killed, either the child, a pet or an adult that get collided at 30mph by one of these children/youth	cctv	commonwealth village			
Also, though any problem moved becomes a problem elsewhere, addressing the issues of prostitution and general anti-social behaviour the area seems to attract (drug use, fly tipping etc are a big problem behind Havannah Street, maybe CCTV could also assist in addressing this). Really it's ensuring that all the other developments and improvements in the area are fully accessible to all as opposed to having this area of multiple barriers preventing this.	<p>It is really at the heart and centre of so many current and proposed developments from Calton Village to the Meatmarket to the possible development at Havannah Street to further development around High Street and High Street station and so on and so on. If there are no current plans to improve this area it will very quickly seem more of an outlier given all the improvements being made round about, and it should be a prime connection due to the location of the supermarket and proximity of the gallowgate/barras, encouraging existing locals and new arrivals to shop local/aspiring to 20 minute neighbourhood goals.</p> <p>It could help the public become more Eco friendly growing their own food.</p> <p>The cctv would help to discourage the Misery and crime that Drugs have caused and ANTISOCIAL Destruction to families and Society in the area.</p>	cctv	duke street, hunter street and barrack street			
Also I would like CCTV installed in the area due to the massive drug dealing in the area.		cctv	gallowgate and david court			
cctv camera on children's park behind london avenue is much needed as miscreants throw a lot of glass bottles.	Safer place for kids.	cctv	london avenue			

Making Calton have some kerb appeal - do something with old building instead of letting them go to ruin then after year neglect costing more to fix eg St James school us residents have to constantly look at this derelict eye soar also tureen Street school Rain garden(s) along Dalmarnock Road - drainage improvements to mitigate recurrent surface water flooding outside Dalmarnock Train Station which poses a major accessibility issue, especially for wheelchair users, mobility scooters and those with prams.	Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a felling of respect	community facilities and centres	calton			
I would like the area opposite St Mungo School on Gallowgate made into plots where the public can grow their own fruit and veg. It could help the public become more eco friendly growing their own food.	Improved placemaking. Making the area nice for people to live. It could help the public become more Eco friendly growing there own food. The cctv would help to discourage the Misery and crime that Drugs have caused and ANTISOCIAL Destruction to families and Society in the area.	community gardens and nature	dalmarnock road			
i would plant more trees or plants which would brighten up the area.	Tourists not only look at the positive they also look at the negative.in an area where we have a historic building and students from all over the world come to stay we need to have a safe clean environment for all individuals to enjoy as well as tennents	community gardens and nature	saint andrews street			
Control the amount of invasive plants growing along the river path so the riverside can be used more Eg seating areas along the river.	Get rid of the eye sore derelict land areas, making the community proud about where they live. Encourage people to spend more time in nature without the depressing site of litter everywhere. Hopefully remove areas that are used for fly tipping which is a massive problem.	community gardens and nature	sunnybank street and the commonwealth village as a whole			
Actively look after elcho gardens not just a place for dogs less traffic more bike lanes on springfield rd	Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a felling of respect It will make a difference if they can see the plan come to live	community gardens and nature	the whole calton area need revamped			
Could funds potentially be used for trees along Springfield Road in the existing grassed roadside drainage rain gardens / swales? It would look a lot nicer from a placemaking perspective and help to green Springfield Road.	Improved placemaking. Making the area nice for people to live. It will make a difference if they can see the plan come to live	community gardens and nature	springfield rd london rd			
improving pavements n parking on main roads		flooding	springfield road			
More done in swing park get rid off the hill in park to give kids more space to play (hills were created by housing association dumping when renovating)		pavement safety	springfield rd london rd			
improve kids park	Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a felling of respect give kids a place to go	play parks	calton			
Better lighting, clean up football pitch at St James	Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a felling of respect	play parks	dale street			
		sports and leisure facilities	calton			

<p>The area will be cleaner because people will have bins to dispose of their small rubbish (cans, wrappers &amp; co) and dog poop bags. Less fly tipping overall.</p> <p>In addition, the big Tesco across Dalmarnock bridge should be forced to put measures so their trolleys cannot be removed from their parking lot. The Athlete's village is covered in abandoned Tesco trolleys.</p> <p>Cameras should be installed as there is increasing amount of youth on electric and petrol motorbikes on both payments and roads (I have seen children as small as 5 on the road with mini motorbikes and no adult supervision). Besides the tremendous noise and antisocial behaviour, someone is going to get killed, either the child, a pet or an adult that get collided at 30mph by one of these children/youth</p> <p>We need more litter bins around the Dalmarnock primary school in the Athlete's village, and along both sunny bank street, the pedestrian walks on the canal path and any road/path that leads to Cuningar Loop. The area will be cleaner because people will have bins to dispose of their small rubbish (cans, wrappers &amp; co) and dog poop bags. Less fly tipping overall.</p> <p>A bin was also removed from near the railway line bridge.</p>	<p>Improved placemaking. Making the area nice for people to live.</p>	<p>street bins street bins</p>	<p>commonwealth village dalmarnock train station</p>			
<p>I would have bins at end of street but placed much neater as these bins are a disgrace and unpleasant on the eye.</p>	<p>Tourists not only look at the positive they also look at the negative.in an area where we have a historic building and students from all over the world come to stay we need to have a safe clean environment for all individuals to enjoy as well as tennents</p>	<p>street bins</p>	<p>saint andrews street</p>			
<p>More public bins to help reduce the amount of litter in the area. more cctv more cctv</p>	<p>Get rid of the eye sore derelict land areas, making the community proud about where they live. Encourage people to spend more time in nature without the depressing site of litter everywhere. Hopefully remove areas that are used for fly tipping which is a massive problem. Better public safety</p>	<p>street bins cctv cctv</p>	<p>sunnybank street and the commonwealth village as a whole abercromby street barrowfield gardens</p>			
<p>clyde walkway i would also install cctv on fordneuk street looking along avenue street i would locate cctv on orr street looking directly down the full length of broad street, basically every night there is vandalism on the building with spray paint / grafitti</p>	<p>Help stop some criminals if they know they are on cameras CCTV, the Clyde Walkway is a drug run , the boys on quad bikes, electric bikes and scooters, go to fast and are a danger to others It would stop illegal flytipping</p>	<p>cctv cctv</p>	<p>clyde walkway fordneuk street / avenue st</p>			
<p>the barrowland walkway album path is a great idea and attracts lots of tourists but it needs to be maintained. right now, most of it is chipped and broken, and it gets worse every week.</p>	<p>It would help businesses save money on clearing up the mess More pleasing to look at, attract more tourists to the area.</p>	<p>cctv community facilities and centres</p>	<p>orr st / broad st barrowland park</p>			
<p>create a new covered area within glasgow green to be used as a bandstand or by community members and local groups (like tai chi) so that people can meet outside when it's raining. also to provide more lighting to glasgow green to make it more accessible at night and in the winter. this can be done in a bat-friendly way.</p>	<p>Make green space accessible</p>	<p>community facilities and centres</p>	<p>glasgow green</p>			

<p>my idea is that the derelict / unused land on landressy street (opposite glasgow women's library (gwl), next to the stuc building) be used as an outdoor green creative / learning space by glasgow women's library. this is something that gwl really wants to peruse and has registered an interest about with clyde gateway. this would be on a temporary / meanwhile basis until the plans for a permanent vision in that area become clear. gwl could manage this while collaborating with other local organisations on events and activities there - gwl has already built these partnerships.</p>	<p>It will make this space greener, with a mixture of spaces to learn, to sit, meet new people, to grow things and eat what is grown (for example, raised beds could be included). It could be used to involve people more in learning about our environment; our local history - especially the role that women have played in Glasgow's story; in being creative. It would contribute to better health and well-being for people, increase their confidence and skills, and become active in our community. I think it would also add an increased sense of pride in the area.</p>	community facilities and centres	landressy street, bridgeton.			
plants and trees	Will look better and be good for the environment	community gardens and nature	barrowfield gardens			
having more green spaces. more bus stops. more community spaces.	More integration with the local community as new residents such as first time buyers and renters are not integrating with the local area and other residents.	community gardens and nature	bridgeton area and glasgow green			
more opportunities for gardening	Help the local area flourish	community gardens and nature	parkhead / reidvale			
trees and wild floors on springfield road to improve the public space.	Make the area a lot more welcoming and increase biodiversity. Lots of concrete and metal in the new building in the area and not much greenery in between. used to have a lot of lovely mature trees on it for around 100metres and these were all cut down after 2012. check google maps. look at the difference in the area when the trees were there. would be lovely to line street with trees and wild flower patches if possible	community gardens and nature	springfield road from dalmarnock road			
protect the grass spaces where people park their cars around the park. eg on grass outside the grade a listed templeton court put boulders or a creative deterrent	It sends a signal that green spaces are not for traffic - they are for enjoying looking at or walking.	parking	templeton street			
clear the derelict land on abercromby st between the new flats and the treble two. its a total eyesore and makes this area feel very dodgy for walking, especially at night. it could be landscaped and lit and have cctv to make it a safe area. ongoing maintenance would be required to keep the area and in fact that whole stretch of abercromby st clean and free from litter. increased monitoring by police would also be beneficial to try and control youth asb and blatant drug dealing.	Will be an improved amenity for local residents, especially in the new flats, and make walking in that area feel safer, especially for women and especially at night.	parks	abercromby street			
make a proper path between new flats at old baths and crossing to retail park	Easier to walk or push pram on proper tarmac path. It's just dirt track now and gets muddy	pavement safety	between whitevale st and millerston st			
improving pavements	-	pavement safety	parkhead cross			
i would like to see the roads repaired, there are some amount of pot holes, uneven road surfaces and just generally not looked after very well. i would also like to see more maintenance along the clyde walkway, the hog weed growing is tremendous and a threat to children. the clyde walkway needs to stop the use of electric scooters and bikes, they go so fast, it is an accident waiting to happen. cctv along the clyde walkway would be advantageous, because there are always life rings missing,	More security and safety for everyone	place based road maintenance	birkwood street, allan street, dalmarnock road also, the clyde walkway			
a play park in riverside dalmarnock	They've built 500+ homes here with a huge number of families living in the estate. The parking is terrible with parked cars everywhere and so many children playing on the roads because there is no green space at all.	play parks	ashgrove road			

providing public toilets in glasgow green all year round.	It helps sports teams, families and individuals enjoy the park for a full day without needing to go to the toilet in a local business or behind a tree.	public toilets	glasgow green			
i'd like to see more toilet facilities and rubbish bins in and around glasgow green.	This will make people stay in the park for a longer period of time, prevent people doing the toilet outside residents housing and keep one of Glasgow's most visited places cleaner.	public toilets	greendyke st, saltmarket, glasgow green			
bellgrove st - there should be a pedestrian or zebra crossing or two between the duke st end and where it intersects with the gallowgate. it should be turned into a beautiful boulevard lined with trees on either side.	It will make the road safer for pedestrians by having a crossing or two. And it will increase the beauty of the area which gives people more pride in their surroundings and increases feelings of well-being	safety crossings or road markings	bellgrove st			
i would use this fund for something genuinely innovative rather than following the suggestions on the list provided on the previous page, which seem more to do with funding for repairs that should be carried out anyway. how about a genuinely world class skateboarding site in the space left on the old abattoir site	It will attract people and investment to the area, and if done properly could have a global awareness.	sports and leisure facilities	bellgrove st			
more MUGAs in the bridgeton area.	Will give young people a place to go and play and exercise.	sports and leisure facilities	bridgeton			
i think there should be more to do for the kids in the play area there's a skate park only like 3 things in the park , also i think barrowfield should have more cameras	It would make it better for the kids as there would be more for them to do and they wouldn't be so bored and getting the cameras would make people feel safer .	sports and leisure facilities	park is on stamford street at the bottom			
enhanced outdoor play areas for younger age groups and football parks, skate parks for older youth.	great interaction for kids, keeps older kids off the street.	sports and leisure facilities	parkhead			
more bins!!! tackle litter crisis	Help wildlife and residents	street bins	dalmarnock			
would like to see an improvement on the bin areas	Bin area turning into a fly tipping paradise	street bins	fielden street			
parks are used with football fans & covered in broken glass every other game so we need more bins!	There's not enough bins so they dump it & the kids smash them.	street bins	park nearest to springfield road & down the lane from licenced shop one o one.			
more benches and bins throughout dalmarnock	Improve accessibility and open spaces	street furniture	dalmarnock road			
improvements to dalmarnock bridge	The gate way to Glasgow city across the Clyde is in a sorry state. Dirty, lights not working, temporary sewage pipe been running over it for a a year, no much pedestrian protection from traffic. With the amount of new housing and redevelopment which in the area which is amazing, but it's the places in between that give us a sense of pride and this is the gateway to the east end city.	bridges	dalmarnock bridge			

## Improving Street Furniture

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for Decision	Cost
Up until early 2021, there were 2 benches at the 'jetties' by Dalmarnock Bridge.	Improved placemaking. Making the area nice for people to live.	street furniture	dalmarnock bridge			
on glasgow green: handrails along the sloped path beside the steps leading towards the green near the fountain.	Allowing mobility impaired people to access the green and avoid steps.	accessibility	glasgow green			
bike storage hangers	Safe bike storage for everyone.	cycling infrastructure	somewhere between 272 and 306 london road			
reinstate the public toilets at the junction of greendyke street and london road for use at all times, with no cost, for members of the public and ensure they are properly curated	It will mean people can enjoy going to Glasgow Green outwith the hours of the People's Palace being open, it will allow people on processions and other events to use the toilet and it will deter people from urinating and defecating in public and outside people's homes. It will make us more civilised.	public toilets	greendyke street, london road			
more public refuse bins.	Less litter.	street bins	dalmarnock road			
improving street furniture by placing community noticeboards at places recommended by community councils	It will help people know that they have a Community Council and how they can get along and get involved locally.	street furniture	calton			

## Improving Road Safety

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for Decision	Cost
more CCTV cameras	Safety for everyone including people visiting our city.	cctv	saint andrews street			
bike lane on James Street is ill-designed. Needs to be continuous right of way across all openings on north side. People keep parking on the cycle lane - why no enforcement? Both cycle lane & pavement are frequently unswept and muddy.	(and people's dogs - if broken glass and grit is swept up more often). Better visibility for children crossing road.	cycling infrastructure	James St, Bridgeton			
Improving road safety by installing protected cycle lanes on all the major roads and continuing them through junctions in Calton and ensuring that the traffic lights have a cycle phase to clearly separate cycle traffic from motor traffic. While the cost will be outwith the immediate budget, a start must be made on keeping people safe on our roads	It will reduce the current number of collisions, injuries and fatalities that we see on our roads. It will also encourage those people who say the roads are currently too dangerous to get their bike out and cycle.	cycling infrastructure	the saltmarket, the high street, London Road, the Gallowgate, Abercromby Street and Bellgrove Street.			
Resident parking on match day around Celtic Park and improved parking for visitors	Reduce congestion and improve road safety and emergency vehicle access	parking	Commonwealth Village			
Take away the island at the beginning of Dunn Street at Rumford Street (grass verge which is not in use)	There will be more space for parking cars as this has been a problem since the houses were built.	parking	Dunn Street at the bottom of Rumford Street			
Restricting parking in neighbouring streets on event days at Emirates Arena and Celtic Park ...	On event days at Emirates and at Celtic Park, parking remains a serious issue especially in the locality of the both venues. Two thoughts, one is to restrict parking to that of what is currently in place around Hampden Park ...with the addition of enforced double yellow lines/residents parking only in all streets, and the building of a council managed/run multistorey car park in the spare ground at the junction of London Rd/Springfield	parking	streets around Emirates Arena and Celtic Park			
Speed bumps and stop speeding	So there isn't anymore accidents. My kids come round to my mums and I have stopped it as a kid is going to get killed if something doesn't get done. Only street that doesn't have speed bumps in Barrowfield and my mums disabled so if she goes out of that road and tries to cross the road she will get knocked down	place based road maintenance	Fielden Place			

more controlled pedestrian crossings.	Safer, more accessible roads.	safety crossings or road markings	bellgrove street (midpoint between gallowgate and duke street) and millerston street (midpoint between gallowgate and duke street).			
kids can't cross safely.. swap zebra crossing for lights!	Kids are crossing at zebra crossing but cars are speeding through... even add a speed bump?	safety crossings or road markings	springfield road			
turning right onto sunnybank street from springfield road. its too tight due to the curbed area before the can get into the filter lane which is too small. which new flats across being built and development of waste ground in commonwealth village we have to sort out one of the main road entrances to the village to cope with traffic demand and improve safety. its also beside a primary school which requires some thought.	Car and pedestrian safety	safety crossings or road markings	springfield road			
zebra crossing springfield road. potentially is in the wrong position and the zebra pattern on the road has gone so complete lack of visibility of it to people on road and walking/wheeling in the area. flashing lights also work part time.	Road safety	safety crossings or road markings	springfield road			
Repainting of zebra crossings and introduction of zebra crossings along appropriate areas of Dalmarnock Road.	Improved placemaking. Making the area nice for people to live.	road and traffic safety	dalmarnock road			

## Improving Street Lighting

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for Decision	Cost
Repair and restoration of the lamps on Dalmarnock Bridge (Road). Restoration and painting.	Improved placemaking. Making the area nice for people to live.	street lighting	dalmarnock bridge			
road lighting on springfield road and on london road avenue to be improved.	Safer place for kids.	street lighting	london avenue			
pavement lighting on clydewalk way.	Walking/wheeling to athletes village from Dalmarnock bridge will be much safer when dark. There is a 100/150 metre section of walkway from Dalmarnock bridge to first turn off to athletes village is very dark. There is only one street light which doesn't work.	street lighting	clyde walkway			
improving street lighting will help children when playing at night and will improve safety in the area	By improving the lighting this will make these areas safer for everyone at night	street lighting	green street, calton			

## Improving Pavements

What is the idea about?	What is the perceived benefit?	Sub Theme	Location	NRS Decision	Reason for Decision	Cost
widening the pavement outside bridgeton bus garage.	There are an increasing number of events that take place at Bridgeton Bus Garage. When these happen a bus service runs from the garage. The pavement can get very busy with people getting on or getting off their buses. If the pavement was wider on this side of the street, it would greatly improve the safety of people as it would provide extra space and avoid them going on to the road with the vehicles moving about.	accessibility	broad street outside bridgeton bus garage.			
improve pavements, terrible for disabled people, i'm afraid of tripping. please make pathways more even for wheelchair users and prams. fix sudden curbs in places that require large detours to avoid. fix random potholes on pavements. smooth the surfaces so it is not so bumpy to ride across.	Safety on the roads and pavements will help disabled people. when all people can access their local community, they can contribute to the community and make the lives of others better, rather than rely on others to survive.	accessibility	calton			
improve pavements for those with limited mobility and prams etc to use.	-	accessibility	dalmarnock road			
improving the condition of a section of pavement.	The section of pavement needing improved is on a busy section of path which school kids from St Mungo's use to go from the school down to London Road and beyond. The surface on this small section is uneven and breaking up and if it was re-surfaced it would reduce the risk of trips.	pavement safety	fordneuk street (outside the gate to the yard of bridgeton bus garage)			
i would relay the pavement surface on kirkpatrick st	The pavements are badly broken and are a trip hazard	pavement safety	kirkpatrick street			
protection of pedestrians on dalmarnock bridge.	Safety when cross the bridges. Pedestrians are very open on both side of the bridge to traffic.	safety crossings or road markings	dalmarnock bridge			

## Improving Traffic Signals

### What is the idea about?

im a wheelchair user roads are a disgrace no areas for us to cross roads-as no dipped kerbs which makes journeys very long and difficult

traffic signals at london road/springfield. a filter light is required on the london road sides for turning into springfield road ( north and south)

### What is the perceived benefit?

allow disabled people to move about in their area without fear or apprehension about journeys. Bring back our independence.

Currently it's like playing Russian Roulette trying to turn into Springfield from London Road ( all directions)

Sub Theme	Location	NRS Decision	Reason for Decision	Cost
accessibility	bridgeton			
traffic calming	london road and springfield road			

# Neighbourhood Infrastructure Improvement Fund - Calton

## Improving Condition of Roads

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
the roads are terrible	by fixing them	place based road maintenance	back causeway	no	rejected by area partnership	area_partnership
more bus connectivity to the southside etc. cheaper tickets for rail and bus.	People have to use a combination ticket to access other parts of the city.	public transport	all of eastend	no	outwith gcc remit	pre_assessment
roads	Roads never been so bad. They need to be fixed if possible. Building all this cycle roads, barely see anyone use it. Taking of roads from cars. Roads are busy as they are. I am against it and I am a cyclist myself.	road conditions and maintenance	all glasgow	no	valid idea but not passed to area partnership	pre_assessment

## Improving Drainage Systems

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
de weeding 47 bernard terrace not done in 5 years and it shows have pictures to pass on if intrested	Cleansing less litter around and looking derelict site will change people and their mind set at a clean kept place as before once upon a time I've lived here 45 years it's totally neglected	garden and nature maintenance	47 bernard terrace heron st queen mary st opposite your office litarly eastgate? no one cares to notice but park all the staff cars in the very street bernard terrace and bernard path front and back side	no	general maintenance	pre_assessment

## Improving Open Spaces

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
putting more cctv on every street	CCTV on every street would not only be a deterrent but if would give people the opportunity to to prove if an incident occurred,more street lighting would make it safer for people and children at night more bins would means that people are less likely to throw stuff about the street	cctv	every area in the east end	no	vague	pre_assessment

	<p>The area will be cleaner because people will have bins to dispose of their small rubbish (cans, wrappers &amp; co) and dog poop bags. Less fly tipping overall.</p> <p>In addition, the big Tesco across Dalmarnock bridge should be forced to put measures so their trolleys cannot be removed from their parking lot. The Athlete's village is covered in abandoned Tesco trolleys.</p> <p>Cameras should be installed as there is increasing amount of youth on electric and petrol motorbikes on both payments and roads (I have seen children as small as 5 on the road with mini motorbikes and no adult supervision). Besides the tremendous noise and antisocial behaviour, someone is going to get killed, either the child, a pet or an adult that get collided at 30mph by one of these children/youth</p>							
In addition, the big Tesco across Dalmarnock bridge should be forced to put measures so their trolleys cannot be removed from their parking lot. The Athlete's village is covered in abandoned Tesco trolleys. I'd like to see a building could be a repurposed shipping container for a servery for snacks and drinks. This would provide an attraction to bring more people to the area and provide more social facilities for people in the area and it would provide employment and not even cost a million.		cleanliness	athlete's village dalmarnock	no	outwith gcc remit			pre_assessment
	Provides more open social spaces, use of land current unkempt and overgrown and provide employment to the local area and encourage more people to the area while increasing footfall for businesses	community facilities and centres	bridgeton / richmond park	no	outwith gcc remit			pre_assessment
The area around from Duke Street up Hunter Street and into Barrack Street has to be addressed asap, it's shocking in so many regards. Badly maintained, no thought given to pedestrians whatsoever, a nightmare of potholes for cycling, confusing one way systems for cars, pavements often un-navigable due to construction works and parking. It is also quite obviously used for prostitution/kerb crawling, and is dark and desolate at night. Given a new development is underway, there is funding for the Avenues project a stones throw away, and I am involved in a project to develop land behind Havannah Street and adjacent to Hunter Street as a community space, it would be great to see this whole section transformed, to connect the new avenue and the vibrant Gallowgate area, and no longer be a blight on the area and a danger to everyone. The area around from Duke Street up Hunter Street and into Barrack Street has to be addressed asap	It is really at the heart and centre of so many current and proposed developments from Calton Village to the Meatmarket to the possible development at Havannah Street to another student accommodation at Havannah Street to further development around High Street and High Street station and so on and so on. If there are no current plans to improve this area it will very quickly seem more of an outlier given all the improvements being made round about, and it should be a prime connection due to the location of the supermarket and proximity of the gallowgate/barras, encouraging existing locals and new arrivals to shop local/aspiring to 20 minute neighbourhood goals. Also, though any problem moved becomes a problem elsewhere, addressing the issues of prostitution and general anti-social behaviour the area seems to attract (drug use, fly tipping etc are a big problem behind Havannah Street, maybe CCTV could also assist in addressing this). Really it's ensuring that all the other developments and improvements in the area are fully accessible to all as opposed to having this area of multiple barriers preventing this.	community facilities and centres	duke street, hunter street and barrack street	no	vague			pre_assessment
To provide more open space around the river near Richmond Park / bridgeton. There's a great area near the bridge by shawfield / Richmond Park where the overgrown foliage could be cut back and picnic tables installed.	Provides more open social spaces, use of land current unkempt and overgrown and provide employment to the local area and encourage more people to the area while increasing footfall for businesses Get rid of the eye sore derelict land areas, making the community proud about where they live. Encourage people to spend more time in nature without the depressing site of litter everywhere. Hopefully remove areas that are used for fly tipping which is a massive problem.	community gardens and nature	bridgeton / richmond park	no	not in ward			pre_assessment
Make use of derelict land on sunnybank street and Springfield road.		community gardens and nature	commonwealth village	no	already being costed			area_partnership
Updated signage on closes and scheme	Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a feeling of respect	housing	the whole calton area need revamped	no	outwith gcc remit			pre_assessment
more bins	CCTV on every street would not only be a deterrent but if would give people the opportunity to to prove if an incident occurred, more street lighting would make it safer for people and children at night more bins would means that people are less likely to throw stuff about the street	street bins	every area in the east end	no	vague			pre_assessment
More seating and tables in Calton park if hills are flattened	Safer, more inviting for elderly to come out and socialise, become more community involved, give people in area a feeling of respect	street furniture	calton	no	already being costed			pre_assessment

more street lighting	CCTV on every street would not only be a deterrent but if would give people the opportunity to to prove if an incident occurred,more street lighting would make it safer for people and children at night more bins would means that people are less likely to throw stuff about the street	street lighting	every area in the east end	no	vague	pre_assessm ent
stop fly tipping cleaner street empty bins more often	-	cleanliness	bernard terrace mill crescent	no	valid idea but not passed to area partnership	pre_assessm ent
more needs to be done to create sae places. re-open youth clubs to protect and give guidance to kids, especially 11-15 year olds investment in bridgeton cross the site is currently privately owned however it need urgent repair to modernise and bring it up to date, a disused shop premises is large enough to provide an attraction to the area and provide employment. my idea is to split the unit in two one side a 1950's americana diner which the city doesn't have and a proper coffee place to sit and relax this would help bring people into the local area and encourage more people to bridgeton cross.	-	community facilities and centres	-	no	vague	pre_assessm ent
grants/spaces to allow and encourage for restaurants/cafes in the area.	More social spaces and increase in footfall for business, provide an attraction tonthe area Encourage small businesses to the area. Creates more of a destination for the rest of the city but also creates a sense of community within the area.	community facilities and centres	bridgeton main street	no	outwith gcc remit	pre_assessm ent
no lift at bellgrove station	-	community facilities and centres	duke street	no	not capital	pre_assessm ent
spend the money fixing the peoples palace and winter gardens	Bring visitors back the way it was	community facilities and centres	glasgow green	no	already being costed	area_partner ship
somewhere like the hub that's empty used for the kids clubs.	Keep the kids from getting into trouble. Gained knowledge Healthy Diet Ownership Respect	community facilities and centres	springfield road	no	not capital	pre_assessm ent
more common ground for fruit and veg growing replace grassed area with more flowers	Respect	community gardens and nature	all of east end	no	no location	pre_assessm ent
the green space between wellpark and tennents brewery - this could be use for benches, spaces to chill and play	-	community gardens and nature	duke street	no	not in ward	area_partner ship
green space within meat market seeing glasgow green as a hub or source of well cared for green pace. design a ripple effect where elements of the park flow out into surrounding areas - like branches of a tree	-	community gardens and nature	duke street	no	already being costed	area_partner ship
creating a community garden in the waste ground between 286 and 292 london road.	People in neighbourhoods like Carlton / Bridgeton will feel a connection with the park even if they are not in it - whether that be more grass / trees / water	community gardens and nature	glasgow green	no	planning	area_partner ship
more ev charging points.	Residents around the area could grow their own fruit and vegetables and the space could be used for community events too. Help with accessibly in our journey towards sustainability. Many residents in Dalmarnock do not have the option to install their own charge point for EV vehicles.	community gardens and nature	waste ground between 286 and 292 london road.	no	private	area_partner ship
reduce hard impermeable surfaces and retrofit blue-green infrastructure.	Blue-green infrastructure is good to biodiversity, urban cooling, air quality, reducing flood risk and improving water quality.	electric vehicles	dalmarnock everywhere.	no	case work	area_partner ship
		flooding	why on earth is this public consultation survey being run for only 3 weeks during the start of the school summer holiday season when a lot of people are on holiday! this is either just very poor planning, or being done on purpose to reduce the number of responses. this is not good quality public engagement!	no	vague	pre_assessm ent

regular walk about from housing officers to keep an eye on up keep	It will save tennant doing what thy want and building what thy want which upsets others living in area	housing	chalmers st calton	no	general maintenance	pre_assessment
cleaner spaces within the dennistoun drives and green spaces - no garden closest park is alexandra parade uphill.	-	parks	duke street	no	not in ward	area_partnership
more green spaces that can be used by everyone not just the kiddie parks	A space to have community meals/ cookouts/	parks	tobago street	no	already being costed	area_partnership
increase play scheme or group ideas for teenagers	If they had somewhere safe to go it would hopefully prevent them hanging about in large numbers and intimidating people.	play parks	bridgeton	no	not capital	area_partnership
more play areas for young people	Would give young people access for more fun outdoors	play parks	parkhead / reidvale	no	rejected by area partnership	area_partnership
glasgow has tennis courts in the west and the south what is a great idea. but has none in the east side. i believe it would be highly beneficial to build a tennis court in cunningar loop. the neighbourhood would benefit a lot from it.	Sport is beneficial for body and the mental health. Tennis is a great sport to practice. We need great tennis players who can compete if possible in future. To achieve this we need to make tennis easily accessible for kids in the East as well. Need to make kids to like tennis. This is very important. Since there is not any tennis courts in the East we lost a huge opportunity.	sports and leisure facilities	cunningar loop	no	not in ward	area_partnership
a skate park to encourage roller skating and skateboarding as there isn't one in the east end of the city. i know a lot of adults who skate as well as kids	Encourage exercise and sport	sports and leisure facilities	dalmarnock	no	case work	area_partnership

## Improving Pavements

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
smoother, safer kerbs for partially sighted.	Any improvements will make life easier for the whole community.	accessibility	all	no	no location	pre_assessment
my idea is about inducing more repair / decomposing work for glass shards (small and big sized) on the footpaths and side lanes. by having banner boards as we have for any repair work - for inclusivity, accessibility and safety of civilians with varying needs.	Once there is work in place to get all the shards off the paths, people such as myself who use a walker will have a smooth path. The glass shards are detrimental to the stability of my walker.	cleanliness	around wallace street, also a lot of paisley areas are similarly challenging	no	general maintenance	pre_assessment
smoother and safer pavements to reduce the risk of falls.	-	pavement	parkhead	no	vague	pre_assessment
the pavements here are terrible	easy to walk on for everyone, safer	pavement safety	back causeway	no	not in ward	area_partnership
to fill pot holes out/house and along pathway	i am confined to a wheelchair and my chair gets stuck in potholes. i have reported to local councillor. there is 4 or five along the path. i am also partially sighted and get very nervous going out.	road conditions and maintenance	-	no	valid idea but not passed to area partnership	pre_assessment

## Improving Road Safety

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
putting low kerbs on pavement across whitevale st to make it easier to cycle through it	Helps people cycling but mobility scooters too. Some folk cycle on pavement at the blocked bit so they could stay in road out the way of folk walking	accessibility	whitevale st near railway bridge	no	case work	area_partnership

more bins, more lights,	Just cleaner and safer	cleanliness	general barrowfield	no	vague	pre_assessment
improve the interlinking of the existing cycle paths.	Have really been enjoying cycling on the new segregated cycle paths in Glasgow, would be great if these could be extended and better interlinked.	cycling infrastructure	all areas	no	no location valid idea but not passed to area partnership	pre_assessment
segregated cycleways on all main road/arterial routes.	Reduces and controls the dominance of vehicular traffic, and enables active travel.	cycling infrastructure	all main roads and arterial routes.	no		pre_assessment
improving pavements, roads and open spaces would be beneficial to the children and young people in the local area.	Young people would be able to access the local infrastructure for cycling and physical activity.	open spaces	helenslea/ tollcross/ parkhead	no	vague	pre_assessment
stop parents parking along sunnybank st and springfield road when dropping off kids at school, there is no safe place to cross, visibility is very poor for drivers too, someone is going to get knocked down.	Safer crossing for all residents by it a no parking zone.	parking	sunnybank & springfield road.	no	case work	area_partnership
more for kids. cleaner streets.	-	play parks	potter place	no	not in ward	area_partnership
safety for pedestrians and road users - improve pavements and roads to make this happen	-	road conditions and maintenance	helen vale street	no	vague	pre_assessment
20 mph limit throughout the city on all non-motorway/expressway roads.	Reduces vehicular dominance, and risk of injury or death.	traffic calming	all of them.	no	not capital	pre_assessment
yellow boxes on the road at the junction of clyde gateway and dalmarnock road. when events are on, the area becomes blocked with vehicles blocking the road due to sitting in middle of road and traffic backing up.	Adding yellow boxes will help keep this area clear in case of emergency access and also help the flow of traffic better for all road users.	traffic calming	clyde gateway at dalmarnock road.	no	case work	area_partnership

## Improving Street Furniture

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
telephone box shop idea	-	community facilities and centres	duke street	no	private	area_partnership
coffee spot or food vendor here	-	community facilities and centres	duke street	no	not capital	pre_assessment
new fencing in charmers st back courts are falling apart	This is definitely needed to upgrade the area	housing	chalmers street	no	outwith gcc remit	pre_assessment
improve local parks, new benches and new swing park equipment.	Will benefit all park users.	play parks	helenslea park	no	already being costed	area_partnership

## Improving Street Lighting

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
-------------------	----------------------------------	-----------	----------	----------	------------------	-------------

making sure street lights are working for safety	-	street lighting	-	no	general maintenance	pre_assessment
improve street lighting, wrong lighting system on whitevale path, comes on late during winter.	Any improvements will make life easier for the community.	street lighting	whitevale path	no	case work	area_partnership
keeping the area good for the upcoming kids	enjoyment community together	young people	methven street	no	vague	pre_assessment

## Miscellaneous

What's your idea?	What are the perceived benefits?	Sub Theme	Location	decision	Rejection Reason	Rejected By
more cycle routes and public spaces	-	cycling infrastructure	improve open spaces	no	too vague	pre_assessment
full maintenance of the area kept up	Clean health living environment less rats in the area under the overgrown neglected weeds and vegetation causing fly tipping	garden and nature maintenance	bernard terrace living there 45 years its disgusting now the total negligence of the good glasgow council used to be	no	general maintenance	pre_assessment
more residents houses in parkhead and a lively playground where people can sit and play and relax with family in the evening and day time.	-	play parks	-	no	no location	pre_assessment
