1 Background

In March 2019, the Committee approved a revised Risk Policy and Strategy Statement. Unlike the Fund's other policy documents, this is not a requirement of the regulations but is considered a matter of best practice. The Statement sets out a common basis for risk management across the Fund's other policies and strategies. The Fund's policy documents are available on its website at: www.spfo.org.uk

2 Risk Management Process

The risk management process is illustrated as follows.

3 Risk Register

As a key part of the Fund's risk strategy, a detailed risk register has been established and is maintained for the Strathclyde Pension Fund (SPF) and the Strathclyde Pension Fund Office (SPFO). The format is consistent with the corporate and departmental registers. The register provides a simple, systematic and consistent basis for recording, analysis, understanding, communication, management, monitoring and reporting of risks.
