

## CALTON NEIGHBOURHOOD MANAGEMENT ACTION PLAN

**Neighbourhood Management:** Is a process that enables local communities and service providers to work together to improve and join up services. It was first introduced in Glasgow in 2007 when the first community resident survey examined overall satisfaction and feelings of safety within neighbourhoods; focusing on themes such as cleansing, anti social behaviour, policing, youth disorder, the local environment and related members and a further survey was carried out in 2010/11 in partnership with Glasgow Housing Association (GHA). The third wave of Neighbourhood Management is being progressed through Area Partnership structures across the City.

### Area Partnership:

**Identified Priorities:** The Calton Area Partnership has identified key issues that they feel are of particular concern within the ward under the following Neighbourhood Management Priorities:

- Street Cleansing
- Crime
- Public Services

**Traffic Light Status:** The priorities identified for the Calton Ward have been split under the following categories:

- - Short Term Priorities which can be actioned within agreed timescales
- - Medium Term Priorities which may take longer to progress, however estimated timescales can be agreed
- - Long Term Priority that can be referred to relevant structure/partner agency and is regarded as an ongoing priority with no agreed timescales
